[Project No. 6299-014]

#### Dakota County, Minnesota; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for license for the Lake Byllesby Hydroelectric Project, located on the Cannon River in Dakota and Goodhue counties, Minnesota, and has prepared an Environmental Assessment (EA) for the project. The project does not occupy any federal lands.

The EA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal

action that would significantly affect the quality of the human environment.

In addition to publishing the full text of this notice in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this notice, as well as other documents in the proceeding (e.g., amendment application and EA) via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the eLibrary link.
