Tribal Ordinance No. 004—02; Adopting Article 64 of the Tigua Tribe's Code of Laws Entitled: Sale of Alcoholic Beverages

Pursuant to the authority vested in the Tribal Council as the duly constituted traditional governing body of the Ysleta del Sur Pueblo, a federally recognized Indian tribe exercising all inherent governmental powers, fiscal authority and tribal sovereignty as recognized in the Ysleta del Sur Pueblo Restoration Act (Public Law 100—89 as codified in 25 U.S.C. 1300g) and its lawful authority to provide for health, safety, morals, welfare, tribal economic development and self-sufficiency of the Ysleta del Sur Pueblo, the Tribal Council hereby enacts this Ordinance for the purpose of regulating the sale of alcoholic beverages. Therefore, be it resolved and ordained by the Tribal Council of the Ysleta del Sur Pueblo:

Except as otherwise provided herein, the sale and consumption of alcoholic beverages on the Pueblo's reservation and its lands shall be in conformance with the laws of the State of Texas. Nothing contained herein shall be construed as a grant of jurisdiction to the State of Texas or a waiver of any of the Pueblo's sovereignty or immunity from suit.

Section 2—Fees. Any and all fees, charges, or income resulting from the sale of alcoholic beverages shall be due and payable to the Ysleta del Sur Pueblo rather than the State of Texas.

Section 3—Enforcement. The Pueblo shall be solely responsible for the enforcement and administration of this Ordinance. The Tigua Tobacco and Alcohol Commission shall issue and enforce such regulations as are reasonably necessary to carry out the purposes of this Article.

Section 4—Tigua Alcohol and Tobacco Commission.

SUPPLEMENTARY INFORMATION: 5 CFR 1320.12(a), requires that we provide a 60-day notice in the **Federal Register** concerning a collection of information to solicit comments on:

(a) Whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;

(b) The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;

The Mineral Leasing Act of 1920 (MLA) (30 U.S.C. 181 *et seq.*), gives the Secretary of the Interior responsibility for oil and gas leasing on approximately 570 million acres of Federal mineral estate. The MLA authorizes the Forest Service (FS) to permit oil and gas companies, lessees, exploration companies, and independent exploration operators to conduct geophysical exploration on or off leases on National Forest System (NFS) lands. The Act of August 7, 1947 (Mineral Leasing Act of Acquired Lands), authorizes the Secretary of the Interior to lease lands acquired by the United States (30 U.S.C. 341-359); and the Federal Onshore Oil and Gas Leasing Reform Act of December 22, 1987, authorizes the Secretary of the Interior to lease NFS lands with FS consent. On NFS lands, the Secretary of Agriculture is authorized to regulate all surface-disturbing activities which take place on a lease.

43 CFR Group, 3150 establishes procedures for BLM to issue authorizations to conduct oil and gas geophysical exploration operations on public lands. 36 CFR part 228 subpart E, and 36 CFR part 251 subpart A and subpart B establish procedures for the FS to authorize geophysical operations on FS lands.

The BLM and FS need the information requested on the Notice of Intent to process applications for

geophysical exploration operations on public lands and to manage environmental compliance requirements in accordance with the laws, regulations, and land use plans. The BLM and FS use the information to determine if operators will conduct geophysical operations in a manner consistent with the regulations, local land use plans, and stipulations. The BLM and FS need the information requested on the Notice of Completion to determine whether rehabilitation of the lands is satisfactory or whether additional rehabilitation is necessary. You may submit the forms in person or by mail. We need the company name, address, and telephone number to identify the person/entity conducting operations. BLM will assign a Case File Number to track each specific operation. We require the legal land description to determine the location of the involved public lands. Additional information that we request includes the type and size of the proposed activity, location of the proposed operation, equipment you plan to use, operating procedures, and timing of the operation.

Applicants must submit these forms to allow BLM and FS to determine who is conducting geophysical operations on public lands. An interagency BLM/FS team revised the respective forms to streamline and improve the process for both the Federal Government and its customers. Combining the BLM and FS individual forms into a single BLM/FS form will ensure consistent management of the geophysical operations on public lands and will better serve the public.

(4) Notice of Completion of Oil and Gas Exploration Operations, BLM Standard Form 3150-5.	(2) Notice of Completion of Geophysical Exploration Operations, BLM Standard Form 3110-5/FS Standard Form 2800-16a.

Based on past and recent experience administering onshore oil and gas geophysical exploration operations, BLM estimates the public reporting burden for completing the Notice of Intent is one hour, and for completing the Notice of Completion is 20 minutes. The information we require is clearly outlined on the forms and in the terms and conditions. The information is already maintained by the respondents for their own record keeping purposes and they will need only to transfer or attach it to the forms. BLM estimates that it receives approximately 600

Notices of Intent and 600 Notices of Completion annually, with a total annual burden of 800 hours. Respondents vary from small businesses to major corporations.

The FS estimates the reporting burden is approximately one hour to complete a Notice of Intent which includes the time to gather the information on the project and complete the form. The FS estimates that it receives approximately 25 Notices of Intent and 25 Notices of Completion annually, with a total annual burden of 31 hours. Respondents include individual lessees, small and

large companies, and independent exploration operators. After combining the annual burden of the BLM and FS, the total estimated annual burden is 831 hours.

Any member of the public may request and obtain, without charge, a copy of the BLM Form 3110-4/FS Form 2800-16 or BLM Form 3110-5/FS Form 2800-16a by contacting the person identified under **FOR FURTHER INFORMATION CONTACT**.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All

comments will become a matter of public record.
