

TABLE 2—TEST STANDARDS OSHA IS ADDING TO THE NRTL PROGRAM'S LIST OF APPROPRIATE TEST STANDARDS

Test standard	Test standard title
UL 62841–2–8	Safety Requirements for Particular Requirements for Hand-Held Shears and Nibblers.
UL 62841–2–11.	Safety Requirements for Particular Requirements for Hand-Held Reciprocating Saws.
UL 62841–3–4	Safety Requirements for Particular Requirements for Transportable Bench Grinders.
UL 62841–3–6	Safety Requirements for Particular Requirements for Transportable Diamond Drills with Liquid System.

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, a NRTL's scope of recognition does not include these products.

A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, SGS must abide by the following conditions of the recognition:

1. SGS must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in the operations as a NRTL, and provide details of the change(s);

2. SGS must meet all the terms of the recognition and comply with all OSHA policies pertaining to this recognition; and

3. SGS must continue to meet the requirements for recognition, including all previously published conditions on SGS's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the scope of recognition of SGS, subject to the limitation and conditions specified above. OSHA also adds four new test standards to the NRTL Program's List of Appropriate Test Standards.
