Total Annual Burden: 17,600 hours.

Total Annual Cost: N/A.

Needs and Uses: The Commission seeks comment on ways to streamline further the application process and expand outreach efforts regarding the rural health care universal service support mechanism. The Commission implemented the rural health care mechanism at the direction of Congress as provided in the Telecommunications Act of 1996 (1996 Act). In past years of its operation, the rural health care mechanism has provided discounts that have facilitated the ability of health care providers to provide critical access to modern telecommunications and information services for medical and health maintenance purposes to rural America. Participation in the rural health care universal service support mechanism, however, has not met the

Commission's projections. The Commission finds it appropriate to assess whether our rules and policies require modification.
