[Program Announcement 02163]

Support for Civil Society Organizations Responding to HIV/AIDS in Zimbabwe; Notice of Availability of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the

availability of fiscal year (FY) 2002 funds for a Cooperative Agreement program to Support Civil Society Organizations Responding to HIV/AIDS in Zimbabwe.

The purpose of this cooperative agreement is to provide support to civil society organizations responding to the HIV/AIDS epidemic in Zimbabwe. Civil society in Zimbabwe can and does play a critical role in strengthening the national response to the HIV/AIDS epidemic. AIDS Service Organizations (ASOs), communities of faith, educational and theatre groups and other non-governmental organizations have the ability to efficiently reach target audiences and to effectively provide education, training, prevention, clinical care and psychosocial support services.

Specifically, CDC intends to focus its support on: (1) AIDS Service Organizations (ASO) with national or regional missions and activities or cross-cutting activities that are not compatible with the District AIDS Action Committee (DAAC) Initiative; (2) ASO infrastructure or administrative support that is needed to complement a unique, supporting role that the ASO is playing as a member of a DAAC, or to complement a situation in which the ASO has received funding for program services but not for administrative support needed to properly manage those resources; and (3) faith organizations implementing activities that involve progressive involvement in major HIV/AIDS programs already underway in Zimbabwe.

B. Eligible Applicants

Applications may be submitted by nonprofit voluntary organizations, including faith-based organizations, responding to or working with HIV/AIDS in Zimbabwe and are registered under the laws of Zimbabwe.

C. Availability of Funds

Approximately \$300,000 is available in FY 2002 to fund multiple awards averaging from \$30,000 to \$50,000 per award. It is expected that the awards will begin on or about September 30, 2002, and will be made for a 12-month budget period within a project period of up to five years. Funding estimates may change.

Continuation awards within an approved project period will be made on the basis of satisfactory progress as evidenced by required reports and the availability of funds.

Use of Funds

Antiretroviral Drugs

Funds received from this announcement will not be used for the purchase of antiretroviral drugs for treatment of established HIV infection (with the exception of nevirapine in the prevention of mother to child transmission (PMTCT) cases and with prior written approval), occupational exposures and non-occupational exposures, and will not be used for the purchase of machines and reagents to conduct the necessary laboratory monitoring for patient care.

Applicants may contract with other organizations under these cooperative agreements; however, applicants must perform a substantial portion of the activities, including program management and operations and delivery of prevention services for which funds are requested.

The costs that are generally allowable in grants to domestic organizations are likewise allowable to foreign institutions and international organizations, with the following exceptions:

Indirect Costs: With the exception of the American University, Beirut, the Gorgas Memorial Institute, and the World Health Organization, indirect costs will not be paid (either directly or through a sub-award) to organizations located outside the territorial limits of the United States or to international organizations regardless of their location.

All requests for funds, including the budget contained in the application, shall be stated in U.S. dollars. Once an award is made, the Department of Health and Human Services (DHHS) will not compensate foreign grantees for currency exchange fluctuations through the issuance of supplemental awards.

Federal law requires that no funds appropriated under this Act shall be used to carry out any program of distributing sterile needles or syringes for the hypodermic injection of any illegal drug.

D. Program Requirements

In conducting activities to achieve the purpose of this program, the recipient(s) will be responsible for the activities under 1. Recipient Activities, and CDC will be responsible for the activities listed under 2. CDC Activities.

1. Recipient Activities

a. Strengthen the Operational Capacity of Civil Society Organizations Responding to HIV/AIDS in Specific Districts and/or Regions in Zimbabwe.
