

I. Background

Section 110 of the Employment Retirement Income Security Act (ERISA) authorizes the Secretary to prescribe alternative methods of compliance with the reporting and disclosure requirements of Title I of ERISA for pension plans. Simplified employee pensions (SEPs) are established in section 408(k) of the Internal Revenue Code (Code). Although SEPs are primarily a development of the Code and subject to its requirements, SEPs are also pension plans subject to the reporting and disclosure requirements of Title I of ERISA.

The Department previously issued a regulation under the authority of section 110 of ERISA (29 CFR 2520.104-49) that intended to relieve sponsors of certain SEPs from ERISA's Title I reporting and disclosure requirements by prescribing an alternative method of compliance. These SEPs are, for purposes of this Notice, referred to as "non-model" SEPs because they exclude (1) those SEPs which are created through use of Internal Revenue Service (IRS) Form 5305-SEP, and (2) those SEPs in which the employer limits or influences the employees' choice to IRAs into which employers' contributions will be made and on which participant withdrawals are prohibited. The disclosure requirements in this regulation were developed in conjunction with the Internal Revenue Service (IRS Notice 81-1). Accordingly, sponsors of "non-model" SEPs that satisfy the limited disclosure requirements of the regulation are relieved from otherwise applicable reporting and disclosure requirements under Title I of ERISA, including the requirements to file annual reports (Form 5500 Series) with the Department, and to furnish summary plan descriptions and summary annual reports to participants and beneficiaries.

This ICR includes four separate disclosure requirements. First, at the time an employee becomes eligible to participate in the SEP, the administrator of the SEP must furnish the employee in writing specific and general information concerning the SEP; a statement on rates, transfers and withdrawals; and a statement on tax treatment. Second, the administrator of the SEP must furnish participants with information concerning any amendments. Third, the administrator must notify participants of any employer contributions made to the IRA. Fourth, in the case of a SEP that provides integration with Social Security, the administrator shall provide participants with statement on Social

Security taxes and the integration formula used by the employer.

II. Desired Focus of Comments

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected;
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

III. Current Actions

The existing collection of information should be continued because the alternative disclosure arrangement provided through this regulation relieves sponsors of "non-model" SEPs of most of the reporting and disclosure requirements under Title I of ERISA. Also, the disclosure requirements set forth in this regulation, insure that administrators of "non-model" SEPs provide participants with specific written information concerning SEPs.
