Notice of a Change in Status of the Extended Benefit (EB) Program for New Mexico

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice; correction.

SUMMARY: The Department of Labor's (DOL) Employment and Training Administration (ETA) published in the **Federal Register** on April 27, 2021, concerning New Mexico's EB change. On March 17, 2021, New Mexico Senate Bill 52 was enacted authorizing the use of the optional TUR trigger to determine New Mexico's EB status, and based on data released on March 15, 2021 by BLS, the seasonally-adjusted 3-month average total unemployment rate (TUR) for New Mexico rose above the 8.0 percent threshold necessary to trigger "on" to a

High Unemployment Period for EB. However, in New Mexico, with the exception of general appropriation legislation, laws go into effect 90 days after date of enactment. This delay was not originally considered, and the original **Federal Register** Notice published on April 27, 2021 (86 FR 22268) contained an incorrect status change for New Mexico. Therefore, DOL is issuing this correction.

FOR FURTHER INFORMATION CONTACT: U.S. Department of Labor, Employment and Training Administration, Office of Unemployment Insurance Room S-4524, Attn: Thomas Stengle, 200 Constitution Avenue NW, Washington, DC 20210, telephone number (202) 693-2991 (this is not a toll-free number) or by email: Stengle.Thomas@dol.gov.

SUPPLEMENTARY INFORMATION:

Correction

The New Mexico State Constitution stipulates that unless otherwise specified, legislation becomes effective 90 days after date of enactment. As such, New Mexico Senate Bill 52 authorizing the use of the optional TUR trigger to determine New Mexico's EB status does not become effective until June 18, 2021. Therefore, New Mexico's EB status preceding June 18, 2021 should not have considered the optional TUR trigger and New Mexico's EB status is corrected to reflect that due to the insured unemployment rate in the state dropping below 5.0 percent for the week ending March 13, 2021, New Mexico triggered "off" EB effective April 3, 2021.

Signed in Washington, DC.

Principal Deputy Assistant Secretary for Employment and Training, Labor.

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

DOL seeks to revise the Guam Military Base Realignment Contractor Recruitment Standards ICR based on revised Department of Defense (DOD) projections on the number of workers needed for the next several years. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submission of responses).
