Abstract: The SSV collects annual administrative data on allegations and substantiated incidents of sexual victimization from adult correctional and juvenile justice authorities. To meet the requirements of the Prison Rape Elimination Act of 2003 (PREA; Pub. L. 108–79), the survey will be administered to the Federal Bureau of Prisons and all state prison systems, all state juvenile justice systems, all facilities operated by the U.S. Military and U.S. Immigration and Customs Enforcement, all privately operated jails, and all juvenile facilities in Indian country. Representative samples of adult public jails, adult jails in Indian country, adult private prisons, and local and private juvenile justice facilities will also be included. These data are used to provide insight into the total number of allegations being reported to correctional authorities, the outcomes of investigations of allegations, and the characteristics of incidents, victims and perpetrators. Revisions to the collection include revised sampling designs, updated definitions of sexual

victimization, and modifications to the survey forms to collect more information about victims and perpetrators of sexual victimization and to make survey forms more user-friendly.
