DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Program Announcement 01017]

National Partnerships for Human Immunodeficiency Virus (HIV) Prevention With a Focus on Business and Labor, Youth-at-High Risk, and Migrant Workers; Notice of Availability of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2001 funds for a cooperative agreement program for National Partnerships for Human Immunodeficiency Virus (HIV) Prevention. This program addresses the "Healthy People 2010" focus areas of HIV Educational and Community-Based Programs, and Sexually Transmitted Diseases. For a conference copy of "Healthy People 2010", visit the internet site:

<http://www.health.gov/healthypeople>.

The purpose of the program is to develop local, regional, State, and

national leadership and support for HIV prevention programs and policies, and to provide technical assistance and service delivery in support of capacity building and skills development for Community-based organizations (CBOs), State and local health departments, and other organizations conducting HIV prevention activities at the local, regional, state, and national levels. This announcement is intended to help address gaps in leadership and technical assistance in the development and delivery of HIV prevention services.

For the purpose of this announcement the following definitions apply:

Leadership activities are defined as the development of communication and mobilization strategies including network development, partnership formation and coalition building, to raise and maintain community, as well as national awareness of HIV prevention needs and programs in specified populations. Leadership activities may also include developing and implementing strategies for needs assessments, policy analysis and service integration in collaboration with the private sector, federal partners, health departments, CBOs and Community planning groups (CPGs).

Technical assistance activities are defined as the provision of information and skills, consultation and training for individuals and organizations to improve the delivery and effectiveness of HIV prevention interventions. Service delivery activities may also be included under the technical assistance activity. Technical assistance funds available under this announcement must support assistance that improves the capacity of recipient agencies to design, develop, implement, and/or evaluate effective HIV prevention interventions for one or more of the three populations described below.

B. Eligible Applicants

To be eligible for funding under this announcement, applicants must be (1) a tax-exempt, non-profit national business or labor related, youth related, or migrant worker related organization; or (2) an academic institution working in a contractual relationship with a community-based partner; or (3) a federally recognized Indian tribal government, a non-federally recognized tribe or other organization that qualifies under the Indian Civil Rights Act, State Charter Tribes, Urban Indian Health Programs, Indian Health Boards, and/or Inter-Tribal Councils.

If you are applying to conduct activities internationally, you must demonstrate having at least two years of experience conducting leadership or
