

slot holdings at an airport. Carriers are reminded that the slot transfer provisions may be used to transfer unused slots to other carriers and that slots may be returned to the FAA for temporary reallocation. We encourage carriers to use existing regulatory mechanisms rather than rely on this waiver. Slot exemptions cannot be sold, leased or otherwise transferred. If carriers determine that they will not use their slot exemptions, they are encouraged to return them to the FAA so that they may be reallocated to other eligible carriers. The FAA intends to use temporarily returned slots to accommodate short-term requests for additional slots or schedule adjustments. In order to meet as many of those needs as possible, the FAA requests that carriers returning slots or slot exemptions under this waiver provide as much advance notice as practical.

Also, the FAA notes that international slots are not subject to the same minimum slot usage requirements as domestic slots. The slot regulations provide that international slots must be returned to the FAA if they will not be used for more than a 2-week period. (See CFR 93.217(3)). Historic allocation priority for subsequent scheduling seasons is granted based on actual operations. For the period of March 19, 2003 through October 25, 2003, the FAA will treat as operated any international slot allocated during that period provided that it was either actually operated by the carrier or returned to the FAA for the period it will not be used. Carriers meeting these conditions will be granted historic status for the corresponding winter 2003 and summer 2004 scheduling seasons.

Lastly, the FAA will continue to monitor operations at the high density traffic airports during the period of this waiver. Carriers are advised to contact the FAA on an individual basis under the provisions of 14 CFR 93.227(j) if further relief is necessary beyond the duration of this policy.

Issued in Washington, DC on April 18, 2003.

James W. Whitlow,
Deputy Chief Counsel.

FOR FURTHER INFORMATION CONTACT: Mr. Cecil Vick, Realty Officer/Environmental Coordinator, and Mr. Dickie Walters, Environmental Protection Specialist, Federal Highway Administration, 666 North Street, Suite 105, Jackson, MS 39202-3199, Telephone: (601) 965-4217. Contacts at

the State and local level, respectively are: Mr. Claiborne Barnwell, Environmental/Location Division Engineer, Mississippi Department of Transportation, P.O. Box 1850, Jackson, MS, 39215-1850, telephone: (601) 359-7920; and Mr. Ricky Lee, District 6 Engineer, Mississippi Department of Transportation, P.O. Box 551, Hattiesburg, MS, 39403-0551, telephone (601) 544-6511.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Mississippi Department of Transportation (MDOT) will prepare an Environmental Impact Statement (EIS) for the relocation study through the six counties of the Mississippi Gulf Coast—Jackson, Harrison, Hancock, Greene, Stone, and Pearl River counties.

The relocated CSX Railroad will be situated within the six Mississippi coastal counties noted above. The project has logical termini at both the eastern and western termini of the State of Mississippi where the connection will occur with the CSX railroad into the states of Alabama and Louisiana. The purpose of the CSX Study is three-fold: Identify the best feasible corridor for relocation of the CSX Railroad in Mississippi; obtain the necessary environmental clearances; and demonstrate the applicability of remote sensing technologies to environmental analysis for transportation planning projects and decision making. Of paramount importance to this effort is the public participation process. The relocated CSX Railroad will enter Mississippi at the eastern terminus in Jackson County and extend generally in a western alignment through Harrison County into Jackson County exiting the state at the western terminus into Louisiana. Alternatives under consideration include (1) taking no action and (2) various build alternatives.

The FHWA and MDOT are seeking input as a part of the scoping process to assist in determining and clarifying issues relative to this project. Letters describing the proposed action and soliciting comments have been sent to appropriate Federal, State, and local agencies, and to private organizations and citizens who have previously expressed or are known to have interest in this proposal. A formal scoping meeting with Federal, State, and local agencies, and other interested parties has been held.

Coordination will be continued with appropriate Federal, State, and local agencies, Native American tribes and private organizations and citizens who have previously expressed or are known

to have interest in this proposal. Numerous public involvement meetings will be held, a newsletter will be developed, and a Web site will be created to keep the public informed. A local project office will be opened in Gulfport, Mississippi. The draft EIS will be available for public and agency review and comment prior to the official public hearing.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments, and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provided above.

Andrew H. Hughes,

Division Administrator, Jackson, Mississippi.
