

please provide your name, organization, city and state, and email address for follow up. Please also indicate whether you would like to provide public comment during the meeting, or if you are submitting written comments.

A. Written Comments

Submit your comments, identified by Docket ID No. EPA-HQ-OA-2024-0043, at <https://www.regulations.gov> (our preferred method), or the other methods identified in the **ADDRESSES** section. Comments must be submitted by 11:59 p.m. Eastern Time on Thursday, March 14, 2024. Once submitted, comments cannot be edited or removed from the docket. EPA may publish any comment received to its public docket. Do not submit to EPA's docket at <https://www.regulations.gov> any information you consider to be Confidential Business Information (CBI), Proprietary Business Information (PBI), or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). Please visit <https://www.epa.gov/dockets/commenting-epa-dockets> for additional submission methods; the full EPA public comment policy; information about CBI, PBI, or multimedia submissions; and general guidance on making effective comments.

B. Participation Virtually and In-Person Public Meeting

EPA will begin pre-registering speakers for the public meeting upon publication of this document in the **Federal Register**. To register to speak virtually or in-person, please use the online registration form available at <https://www.epa.gov/faca/national-environmental-youth-advisory-council-neyac>. The last day to pre-register to speak at the public meeting will be at 11:59 p.m., ET, on Wednesday, February 21, 2024.

EPA will make every effort to follow the schedule as closely as possible on the day of the public meeting; however, please plan for the meeting to run either ahead of schedule or behind schedule.

Individuals or groups making remarks during the public comment period will be limited to two (2)–three (3) minutes. Please be prepared to briefly describe your issue and your recommendation relevant to the current charges, topics,

and questions under consideration by the NEYAC. EPA also recommends submitting the text of your oral comments as written comments to the rulemaking docket.

Written statements and supporting information submitted during the comment period will be considered with the same weight as oral comments and supporting information presented at the public meeting.

Please note that any updates made to any aspect of the public meeting are posted online at <https://www.epa.gov/faca/national-environmental-youth-advisory-council-neyac>. While EPA expects the public meeting to go forward as set forth above, please monitor our website. EPA does not intend to publish a document in the **Federal Register** announcing updates.

C. Information About Services for Individuals With Disabilities or Requiring English Language Translation Assistance

To request special accommodations for a disability or other assistance, please submit your request at least five (5) working days prior to the meeting to give EPA sufficient time to process your request. All requests should be sent to the email listed in the **FOR FURTHER INFORMATION CONTACT** section.

Kathryn Avivah Jakob,

Director, Office of Public Engagement, Office of Public Engagement and Environmental Education, Office of the Administrator.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0645; FR ID 201898]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the

Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before April 15, 2024. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0645.
Title: Sections 17.4, 17.48 and 17.49, Antenna Structure Registration Requirements.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities, not-for-profit institutions and state, local or tribal government.

Number of Respondents: 16,300 respondents; 70,543 responses.

Estimated Time per Response: .1–.25 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third-party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in Sections 4, 303, 48 Stat. 1066, 1082, as amended; 47 U.S.C. 154, 303.

Total Annual Burden: 10,326 hours.
Total Annual Cost: \$56,230.

Needs and Uses: The Commission is seeking Office of Management and Budget (OMB) approval for an extension

of this information collection in order to obtain the full three-year approval. The Commission has adjusted its burden and cost estimates in order to update the collection burdens necessary to implement a uniform registration process as well as safe and effective lighting procedures for owners of antenna structures.

Section 17.4 includes third party disclosure requirements. Specifically, Section 17.4 requires the owner of any proposed or existing antenna structure that requires notice of proposed construction to the Federal Aviation Administration (FAA) to register the structure with the Commission. This includes those structures used as part of the stations licensed by the Commission for the transmission of radio energy, or to be used as part of a cable television head-end system. An antenna structure must be registered with the Commission if the antenna structure is taller than 200 feet above ground level or may interfere with the flight path of a nearby airport or heliport. Section 17.4(f) provides that antenna structure owners shall immediately provide to all tenant licensees and permittees notification that the structure has been registered. This may be done by providing either a copy of Form 854 or a link to the FCC antenna structure registration website. This notification may be done electronically or via paper mail.

Section 17.4(g) requires antenna structure owners to display the Antenna Structure Registration Number in a conspicuous place that is readily visible near the base of the antenna. This rule specifically requires that the Antenna Structure Number be displayed so that it is conspicuously visible and legible from the publicly accessible area nearest the base of the antenna structure along the publicly accessible roadway or path. Where an antenna structure is surrounded by a perimeter fence, or where the point of access includes an access gate, the Antenna Structure Registration Number should be posted on the perimeter fence or access gate. Where multiple antenna structures having separate Antenna Structure Registration Numbers are located within a single fenced area, the Antenna Structure Registration Numbers must be posted both on the perimeter fence or access gate and near the base of each antenna structure. If the base of the antenna structure has more than one point of access, the rule requires that the Antenna Structure Registration Number be posted so that it is visible at the publicly accessible area nearest each such point of access. The registration number is issued to identify antenna structure owners in order to enforce the

Congressionally mandated provisions related to the owners.

Sections 17.48 and 17.49 contain reporting and recordkeeping requirements. Section 17.48(a) requires that antenna structure owners immediately report outages of top steady burning lights or flashing antenna structure lights to the FAA, if not corrected within 30 minutes. Upon receipt of the outage notification, the FAA will issue a Notice to Airmen (NOTAM), which notifies aircraft of the outage. Consistent with FAA requirements, if a lighting outage cannot be repaired within the FAA's original NOTAM period, Section 17.48(a) further requires the antenna structure owner to notify the FAA of that fact and provide any needed updates to its estimated return-to-service date. The rule also requires antenna structure owners to continue to provide these updates to the FAA every NOTAM period until its lights are repaired.

Section 17.49 requires antenna structure owners to maintain a record of observed or otherwise known extinguishments or improper functioning of structure lights for two years and provide the records to the Commission upon request.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.
