SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Army Military Auxiliary Radio System (MARS) Application; Army MARS Form 1; OMB Control Number 0702–0140.

Type of Request: Revision.
Number of Respondents: 550.
Responses per Respondent: 1.
Annual Responses: 550.
Average Burden per Response: 15 minutes.

Annual Burden Hours: 138.

Needs and Uses: The information collection requirement is necessary to operate a Military Auxiliary Radio System (MARS) Station. The MARS program is a civilian auxiliary consisting primarily of licensed amateur radio operators who are interested in assisting the military with communications on a local, national, and international basis as an adjunct to normal communications and providing worldwide auxiliary emergency communications during times of need. The information collection requirement is necessary not only an application to join ARMY MARS, but to maintain an accurate roster of civilians enrolled in the program for the purpose of providing contingency communications support to the DoD. Additionally, the collected information is used by the MARS program manager to determine an individual’s eligibility for the program, as well as to initiate a background investigation should a security clearance be required. Location information may be used to show the geographic dispersion of the members who participate in the global High Frequency radio network in support of the DoD and to ensure our radio spectrum authorizations cover the geographic areas from which our members will operate. The information is also used periodically to email informational updates about the MARS program.

Affected Public: Individuals or households.

Needs and Uses: The information collection requirement is necessary to determine usage on the nation’s waterway network. The authority for the U.S. Army Corps of Engineers (USACE) to collect data on vessel operations and cargo movements is given by Section 11 of 42 Stat. 1043, the Rivers and Harbors Appropriation Act of 1922, as amended by Public Law 99–662 and codified in 33 U.S.C. 555. Using both the ENG 3925, “Vessel Operation Report” forms and ENG Form 3926, “Record of Arrivals and Departures of Vessels,” the Waterborne Commerce Statistics Center (WCSC) is able to paint a complete picture of vessel movements and cargo carried on U.S. waterways. Each set of data produced from the forms allows WCSC to ensure accuracy and completeness. The data are used to annually publish Waterborne Commerce of the United States (WCUS) Ports and Waterways which presents detailed data on the movements of vessels and commodities at the ports and harbors and on the waterways and canals of the United States and its territories. It also provides statistics on the foreign and domestic waterborne commerce moved through the U.S. waters. Congress receives this annual report, and the data contained therein are used in cost-benefit analyses for new projects, rehabilitation projects, and operations and maintenance of existing projects. It is also used by other Federal agencies involved in transportation and security. Researchers and private organizations also use the data regularly to help decide on which locales are best models for their studies/needs.

Affected Public: Business or other for-profit; individuals or households.

Frequency: Monthly.

Respondent's Obligation: Voluntary.
