

procedures, as well as the publication of a revised FMNF Land Management Plan, RUS and Central Electric determined that a Supplemental Draft EIS (SDEIS) would be necessary to evaluate other reasonable corridors, including two options that would originate from the Belle Island Substation, as evaluated in the Draft EIS, and new options originating from the Jamestown Substation and Charity Substation. In 2017, because of comments received from agencies and the general public, Central Electric commissioned, at the request of RUS, an independent engineering study to evaluate and supplement the previously developed studies and assess the merit of the proposed alternatives based on need, impacts, and cost; and to offer additional insight and information that may be relevant to assessing each potential solution.

On August 30, 2019, RUS announced the availability of the SDEIS for the Project (84 FR 45720), which included new analysis of the Jamestown and Charity corridors and two of the original Belle Isle corridors (Options B and C). On September 17 and 19, 2019, RUS conducted public meetings at St. James-Santee Elementary-Middle School in McClellanville and at Jamestown Baptist Church Life Center, respectively.

Following the October 18, 2024 issuance of the FEIS, a total of three public comments were received and were all minor in content. All public comments associated with the FEIS have been taken into consideration and addressed in the ROD. Based on consideration of the environmental impacts of the Project and comments received throughout the Agency and public review process, RUS has determined that the Proposed Action as described above best meets the purpose and need for the Project. RUS finds that the evaluation of reasonable alternatives is consistent with NEPA and RUS Environmental Policies and Procedures. Details regarding RUS regulatory decision and compliance with applicable regulations are included in the ROD.

*Agency:* Economic Development Administration, Commerce.

*Title:* Recompete Pilot Program Implementation Data Collection Instrument.

OMB Control Number: New information collection.  
Form Number(s): None.

Burden Hours: 84. This notice includes the correct estimated total annual burden hours.

**Needs and Uses:** The purpose of this notice is to seek comments from the public and other Federal agencies on a request for a new information collection for six Phase 2 Awardees to help ensure that Recompete investments are evidence-based, data-driven, and accountable to participants and the public.

Coalition leads for the six Recompete Awardees will submit identified program metrics and qualitative information to help assess specific program objectives. A recurring questionnaire will be sent to each of the Recompete coalition leads every six months for a total of five years to gather the relevant data and stories for their awards, resulting in community impact evaluation, resources, and tools for place-based economic development decisionmakers. Recompete Awardees must submit data on a semi-annual basis (*i.e.*, every six months) for five years to provide an update on the status of the coalition's efforts and to help assess the results of receiving Phase 2 Recompete funding.
