Compensation for Generating Units Subject to Local Market Power Mitigation in Bid-Based Markets PJM Interconnection, L.L.C.; Notice of Technical Conferences

January 28, 2004.

As previously announced in a notice issued January 12, 2004, conferences will be held on February 4 and 5, 2004, to discuss issues related to local market power mitigation and the methods of compensating must-run generators in organized markets.¹ The conferences will be held on February 4 and 5 beginning at 9 a.m. The conferences will take place at the offices of the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. The Commissioners may attend all or part of the conferences.

The conference to be held on February 4, 2004, will focus on broad general principles for pricing of must-run generating units and the general framework the Commission should use to address this issue. The conference to be held on February 5, 2004, will focus on PJM's specific proposal regarding compensation for must-run generating units in Docket No. EL03-236 and how it fits within the broader framework.

The February 4, 2004 technical conference will include perspectives from key industry experts and market participants on local market power mitigation and Reliability Must-Run (RMR) issues. This conference will be structured as three panels with brief presentations and question and answer periods.

The subject areas to be considered at the conferences are given below, along
