

related to the '593 patent. That same day, Respondent BOE and the BLF Respondents filed a joint contingent petition for review. OUII did not file a petition for review. On December 9, 2024, Complainant, Respondents, and OUII each filed a response to the petitions.

The Commission solicited submissions from the public on the public interest issues raised by the recommended determination. 89 FR 92721 (Nov. 22, 2024). The Commission received comments from Representative John Moolenaar, Chairman of the House Select Committee on China, and Dr. Robert D. Atkinson of the Information Technology & Innovation Foundation.

On January 8, 2025, SDC filed a notice of supplemental authority to apprise the Commission of the Patent Trial and Appeal Board's final written decisions in *inter partes* review proceedings on the '578 patent and the '803 patent. In the final written decisions, the Board found claim 21 of the '803 patent unpatentable and all other asserted claims of the '578 and '803 patents at issue in this investigation had not been proven unpatentable. See *Mianyang BOE Optoelectronics Tech. Co., Ltd. v. Samsung Display Co., Ltd.*, IPR2023–00987, Final Written Decision (Jan. 6, 2025); *Mianyang BOE Optoelectronics Tech. Co., Ltd. v. Samsung Display Co., Ltd.*, IPR2023–01075, Final Written Decision (Jan. 6, 2025).

On January 16, 2025, the Commission determined to review the ID in part. Specifically, the Commission determined to review: (1) the ID's findings that the Commission has statutory authority to investigate Complainant SDC's alleged violation under section 337 and that Respondents waived their argument that SDC lacked the ability to bring this investigation under Commission Rule 210.12; (2) the ID's findings related to the technical prong for the '803 patent; and (3) the ID's findings regarding the economic prong of the domestic industry requirement. 90 FR 8,034–036 (Jan. 23, 2024). The Commission determined not to review any other findings presented in the final ID, including the ID's finding of no violation of section 337 with respect to the '593 patent. The Commission requested briefing from the parties on certain issues under review and on remedy, the public interest, and bonding. The parties filed their opening written submissions on January 30, 2025, and their responsive written submissions on February 6, 2025.

On review, the Commission has found no violation of section 337 with respect to claims 5 and 21 of the '803 patent; claims 5, 10, 17, 40–41, and 47 of the

'578 patent; and claims 2–3, 13, and 15–16 of the '599 patent. Specifically, the Commission has determined to affirm the ALJ's finding that the Commission has statutory authority to investigate Complainant's alleged violation under section 337. The Commission has also determined to affirm the ID's finding that representative display panels in the asserted domestic industry products practice claim 21 of the '803 patent. The Commission has further determined to affirm with modified reasoning the ID's finding that Complainant failed to demonstrate the existence of a domestic industry under sections 337(a)(3)(A) and (B). Based on this dispositive finding, the Commission has determined to take no position on whether the asserted domestic industry products also practice claim 5 of the '803 patent and whether Respondents forfeited their argument that Complainant is not the owner of the Asserted Patents under Commission Rule 210.12(a)(7).

Accordingly, the investigation is terminated with a finding of no violation. The Commission's reasoning in support of its determinations is set forth more fully in its opinion issued concurrently herewith.

The Commission vote for this determination took place on March 19, 2025.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: March 19, 2025.

Lisa Barton,

Secretary to the Commission.
