SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is withdrawing RG 1.37 because its guidance and regulatory positions are contained in RG 1.28, Revision 4, "Quality Assurance Program Criteria (Design and Construction)"; and RG 1.33, Revision 3, "Quality Assurance Program Requirements (Operation)." The NRC issued RG 1.28, Revision 4 in June 2010, which endorses NQA-1-2008 and the NQA-1a-2009 Addenda, Parts I and II. NQA-1-2008 and NQA-1a-2009 Addenda Part II incorporate the requirements and regulatory positions contained in RG 1.37, Revision 1. Additionally, RG 1.33 endorses ANSI/ANS 3.2-2012. ANSI/ANS 3.2-2012, Section 1.2, "Purpose," requires implementation of the applicable sections of NQA-1-2008 and NQA-1a-2009 during the operational phase of power plant operation. Any update to RG 1.37 to endorse NQA-1-2008 and NQA-1a-2009, Part II, Subpart 2.1 would be redundant since the standards are already endorsed in RG 1.28, Revision 4 and in RG 1.33, Revision 3.

II. Additional Information

The withdrawal of RG 1.37 does not alter any prior or existing licensing commitments based on its use. The guidance provided in this RG is no longer necessary. Regulatory guides may be withdrawn when their guidance no longer provides useful information, or is superseded by technological

innovations, congressional actions, or other events.

Regulatory guides are revised for a variety of reasons and the withdrawal of an RG should be thought of as the final revision of the guide. Although an RG is withdrawn, current licensees may continue to use it, and withdrawal does not affect any existing licenses or agreements. Withdrawal of an RG means that the RG should not be used for future NRC licensing activities. However, although an RG is withdrawn, changes to existing licenses can be accomplished using other regulatory products.

Dated at Rockville, Maryland, this 2nd day of July, 2014.

For the Nuclear Regulatory Commission.

Harriet Karagiannis,

Acting Branch Chief, Regulatory Guidance and Generic Issues Branch, Division of Engineering, Office of Nuclear Regulatory Research.

Change in Rates and Classes of General Applicability for Competitive Products

AGENCY: Postal Service.

ACTION: Notice of a change in rates of general applicability for competitive products.

SUMMARY: This notice sets forth changes in rates of general applicability for competitive products.

DATES: *Effective date:* September 7, 2014.

FOR FURTHER INFORMATION CONTACT:

Daniel J. Foucheaux, Jr., 202–268–2989.

SUPPLEMENTARY INFORMATION: On July 1, 2014, pursuant to their authority under

39 U.S.C. 3632, the Governors of the Postal Service established prices and classification changes for competitive products. The Governors' Decision and the record of proceedings in connection with such decision are reprinted below in accordance with section 3632(b)(2).

Stanley F. Mires,

Attorney, Legal Policy & Legislative Advice.

Decision of the Governors of the United States Postal Service on Changes in Rates of General Applicability for Competitive Products (Governors' Decision No. 14–03)

June 18, 2014

Statement of Explanation and Justification

Pursuant to our authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish price changes for the Postal Service's shipping services (competitive products), specifically for Priority Mail. The changes are described generally below, with a detailed description of the changes in the attachment. The attachment includes the draft Mail Classification Schedule sections with changes in classification language in legislative format, and new prices displayed in the price charts.

The existing structure of Priority Mail Retail, Commercial Base, and Commercial Plus price categories is maintained. Prices in the ground zones (Zones 1–4) and heavier weights (6–20 pounds) will be adjusted to enhance Priority Mail's strategic position in the market. Retail prices will have an average prices increase of 1.7 percent. Commercial Base prices will have an average price decrease of 0.9 percent, while Commercial Plus prices will have an average price decrease of 2.3 percent. Price decreases will be targeted to attract ground volume in the six- to twenty-pound weight cells.

As shown in the nonpublic annex being filed under seal herewith, the changes we establish should enable

each competitive product to cover its attributable costs (39 U.S.C. § 3633(a)(2)) and should result in competitive products as a whole complying with 39 U.S.C. § 3633(a)(3), which, as implemented by 39 C.F.R. § 3015.7(c), requires competitive products to contribute a minimum of 5.5 percent to the Postal Service's institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise (39 U.S.C. § 3633(a)(1)). We therefore find that the new prices and classification changes are in accordance with 39 U.S.C. §§ 3632–3633 and 39 C.F.R. § 3015.2.

Order

The changes in prices set forth herein shall be effective at 12:01 a.m. on September 7, 2014. We direct the Secretary to have this decision published in the **Federal Register** in accordance with 39 U.S.C. § 3632(b)(2). We also direct management to file with the Postal Regulatory Commission appropriate notice of these changes.
