Title of Collection: Office of Equity and Civil Rights Awardee Survey Form.

OMB Control No.: 3145-New.

Expiration Date of Approval: Not applicable.

Abstract: The purpose of the National Science Foundation's (NSF) Office of Equity and Civil Rights (OECR) Awardee Survey Form is to collect awardee feedback and input on NSF's awardee term and condition that requires NSF to be notified: (1) of any findings/determinations regarding the PI or co-PI that demonstrate a violation of awardee codes of conduct, policies, regulations or statutes relating to sexual harassment, other forms of harassment, or sexual assault; or (2) if the awardee places the PI, or co-PI on administrative

leave or imposes an administrative action relating to a finding or investigation of a violation of awardee policies, codes of conduct, statutes or regulations relating to sexual harassment, other forms of harassment, or sexual assault. This survey will assist NSF OECR in assessing how the term and condition has been implemented at awardee organizations and whether improvements or adjustments to the term and condition are either necessary or appropriate to maximize its efficacy and ease of use. This survey will allow us to reach out directly to NSF awardees, to include Authorized Organizational Representatives, Title IX coordinators and researchers, to better understand their respective experiences with the term and condition and to gather their comments for adjustments or enhancements to it.

Respondents: Representatives from NSF Awardee Institutions.

Estimated Number of Annual

Respondents: 100.

Burden on the Public: Estimated 25 minutes per respondent to complete the survey, for a total estimated burden time of 51 hours. This information should be readily available to the representatives selected.

SUPPLEMENTARY INFORMATION:**I. Introduction**

The NRC is issuing License Amendment No. 187 to COL NPF-92, and is granting an exemption to allow a departure from Tier 1 information in the plant-specific DCD for VEGP Unit 4. The generic AP1000 DCD is incorporated by reference in appendix D, "Design Certification Rule for the AP1000," to part 52 of title 10 of the *Code of Federal Regulations* (10 CFR). The exemption, granted pursuant to paragraph A.4 of section VIII, "Processes for Changes and Departures," of 10 CFR part 52, appendix D, allows the licensee to depart from the plant-specific Tier 1 information. With the requested amendment, SNC sought changes from the Tier 1 requirements in the VEGP Unit 4 plant-specific Tier 1 information and COL appendix C that remove certain Inspections, Tests, Analyses, and Acceptance Criteria (ITAAC) that are duplicated by other ITAAC and consolidate a number of other certain ITAAC. The license amendment as issued deletes ITAAC Nos. 26 (2.1.02.07b), 83 (2.1.03.09b), 103 (2.2.01.06b), 172 (2.2.03.07b), 233 (2.2.04.07b), 263 (2.2.05.06a), 296 (2.3.02.06b), 368 (2.3.06.07b), 399 (2.3.07.06a), 878 (2.3.10.11a), 467 (2.3.13.06b), 527 (2.5.02.05a), 582 (2.6.01.03a), and 687 (2.7.01.06a) in COL appendix C and plant-specific DCD Tier 1 information. In addition to deleting ITAAC, the license amendment consolidates requirements from certain ITAAC into a subsuming ITAAC as follows: ITAAC Nos. 789 (3.3.00.07aa), 792 (3.3.00.07ba), 803 (3.3.00.07x.iii.a), 806 (3.3.00.07d.iv.a), and 809 (3.3.00.07d.v.a) are subsumed into ITAAC Index No. 800 (3.3.00.07d.ii.a) and ITAAC Nos. 790 (3.3.00.07ab), 793 (3.3.00.07bb), 804 (3.3.00.07d.iii.b), 807 (3.3.00.07d.iv.b), and 810 (3.3.00.07d.v.b) are subsumed into ITAAC Index No. 801 (3.3.00.07d.ii.b), and ITAAC Index Nos. 791 (3.3.00.07ac), 794(3.3.00.07bc), 805 (3.3.00.07d.iii.c), 808 (3.3.00.07d.iv.c), and 811 (3.3.00.07d.v.c) are subsumed into ITAAC Index No. 802 (3.3.00.07d.ii.c).

Part of the justification for granting the exemption was provided by the review of the amendment. Because the exemption is necessary in order to issue the requested license amendment, the NRC granted the exemption and issued the amendment concurrently, rather than in sequence. This included issuing a combined safety evaluation containing the NRC staff's review of both the exemption request and the license

amendment. The exemption met all applicable regulatory criteria set forth in §§ 50.12, 52.7, 52.63, and section VIII.A.4 of appendix D to 10 CFR part 52. The license amendment was found to be acceptable as well. The combined safety evaluation is available in ADAMS under Accession No. ML22284A133.

An exemption document was issued to SNC for VEGP Unit 4 (COL NPF-92). The exemption document for VEGP Unit 4 can be found in ADAMS under Accession No. ML22284A132. The exemption is reproduced (with the exception of abbreviated titles and additional citations) in Section II of this document. The amendment document for VEGP COL NPF-92 is available in ADAMS under Accession No. ML22284A131. A summary of the amendment document is provided in Section III of this document.

II. Exemption

Reproduced in this document is the exemption document issued to VEGP Unit 4. It makes reference to the combined safety evaluation that provides the reasoning for the findings made by the NRC (and listed under Item 1) in order to grant the exemption:

1. In a letter dated September 2, 2022, Southern Nuclear Operating Company (SNC) requested from the Nuclear Regulatory Commission (NRC or Commission) an exemption to allow departures from plant-specific Tier 1 information as part of license amendment request (LAR) 22-003, "Electrical Inspections, Tests, Analyses, and Acceptance Criteria (ITAAC) Optimization."

For the reasons set forth in Section 3.2 of the NRC staff's combined safety evaluation, which can be found at ADAMS Accession No. ML22284A133, the Commission finds that:

- A. the exemption is authorized by law;
- B. the exemption presents no undue risk to public health and safety;
- C. the exemption is consistent with the common defense and security;
- D. special circumstances are present in that the application of the rule in this circumstance is not necessary to serve the underlying purpose of the rule;
- E. the special circumstances outweigh any decrease in safety that may result from the reduction in standardization caused by the exemption; and
- F. the exemption will not result in a significant decrease in the level of safety otherwise provided by the design.

2. Accordingly, SNC is granted an exemption to allow a departure from the plant-specific Tier 1 information, with corresponding changes to Appendix C of the Facility Combined License, as

described in the licensee's request dated September 2, 2022. This exemption is related to, and necessary for, the granting of License Amendment No. 187 for Unit 4, which is being issued concurrently with this exemption.

3. As explained in Section 6.0 of the NRC staff's combined safety evaluation, this exemption meets the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(9). Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment needs to be prepared in connection with the issuance of the exemption.

4. This exemption is effective as of the date of its issuance.

III. License Amendment Request

By letter dated September 2, 2022 (ADAMS Accession No. ML22245A122), SNC requested that the NRC amend the COL for VEGP, Unit 4, COL NPF-92. The proposed amendment is described in Section I of this **Federal Register** notice.

For the reasons set forth in the NRC staff's combined safety evaluation, the Commission has determined for these amendments that the application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR chapter I, which are set forth in the license amendment.

A notice of consideration of issuance of amendment to the COL, a proposed no significant hazards consideration determination, and an opportunity for a hearing in connection with these actions, was published in the **Federal Register** on September 27, 2022 (87 FR 58540). No comments were received during the 30-day comment period. The NRC has made a final no significant hazards consideration determination as discussed in Section 4.0 of the NRC staff's combined safety evaluation.

The Commission has determined that these amendments satisfy the criteria for categorical exclusion in accordance with 10 CFR 51.22(c)(9). Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for these amendments.

IV. Conclusion

Using the reasons set forth in the combined safety evaluation, the staff granted the exemption and issued the amendment that SNC requested on September 2, 2022. The exemption and amendment were issued on November

22, 2022, as part of a combined package to SNC (ADAMS Package Accession No. ML22284A125).

Dated: November 23, 2022.

II. Notice of Consideration of Issuance of Amendments to Facility Operating Licenses and Combined Licenses and Proposed No Significant Hazards Consideration Determination

For the facility-specific amendment requests shown in this notice, the Commission finds that the licensees’ analyses provided, consistent with section 50.91 of title 10 of the *Code of Federal Regulations* (10 CFR) “Notice for public comment; State consultation,” are sufficient to support the proposed determinations that these amendment requests involve NSHC. Under the Commission’s regulations in 10 CFR 50.92, operation of the facilities in accordance with the proposed amendments would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety.

The Commission is seeking public comments on these proposed determinations. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determinations.

Normally, the Commission will not issue the amendments until the
