

6. Who are/were the populations at risk?

7. What are/were, and what could be/have been, the various consequences to the populations at risk?

8. What parameters should be considered for the safety goals (e.g., workers vs. public, individual vs. societal, accidents vs. normal operations, acute vs. latent fatality or serious injury, environmental and property damage)?

9. On the basis of the answers to the questions above, would it be feasible to develop safety goals in this regulatory area?

10. What methods, data results, safety goals, or regulatory requirements would be necessary to make it possible to risk-inform similar cases?

C. Questions upon development of draft safety goals:

1. Are the current regulations sufficient in that they reflect the objectives of the draft goals? Would major changes be required?

2. Would the regulations need to be tightened?

3. Are the regulations overly conservative and/or too prescriptive with respect to the goals?

4. If these were the safety goals, what decisions would be made?

5. Would these goals be acceptable to the public?

The meeting will include a presentation of the draft plan and an opportunity for interested government agencies, organizations, and individuals to provide comments on the draft plan. Persons who wish to attend the meeting should contact Marissa Bailey no later than September 19, 2000.

Dated at Rockville, MD, this 31st day of August, 2000.

For the Nuclear Regulatory Commission
Lawrence E. Kokajko,

Section Chief, Risk Task Group, Office of Nuclear Material Safety and Safeguards.

NUCLEAR REGULATORY COMMISSION

Human Interaction With Reused Soil: A Literature Search; Draft NUREG-1725 for Public Comment

AGENCY: Nuclear Regulatory Commission.

ACTION: Extension of public comment period for Draft NUREG-1725.

SUMMARY: The Nuclear Regulatory Commission is extending the public comment period for Draft NUREG-1725 "Human Interaction with Reused Soil: A Literature Search."

DATES: Submit comments by November 17, 2000. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: Mail written comments to: David L. Meyer, Chief, Rules and Directives Branch, Office of Administration, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Copies of the Draft NUREG report can be obtained through the NRC website address: <http://www.nrc.gov/NRC/NUREGS/SR1725/index.html> (please note the URL is case sensitive) or by request to the NRC staff contact, Thomas J. Nicholson.

FOR FURTHER INFORMATION CONTACT:

Thomas J. Nicholson; e-mail: tjn@nrc.gov; telephone: (301) 415-6268; Office of Nuclear Regulatory Research, Mail Stop T-9F31, USNRC, Washington DC 20555-0001.

SUPPLEMENTARY INFORMATION: The Nuclear Regulatory Commission (NRC) issued Draft NUREG-1725 "Human Interaction with Reused Soil: A Literature Search" on July 19, 2000 for a 60-day public comment period (closing date was originally September 18, 2000). Copies of the report were sent to Land-Grant University and selected Federal Agency libraries for review and comment. This activity is a joint effort by the NRC Staff and the National Agricultural Library (NAL) staff of the U.S. Department of Agriculture working under an Interagency Agreement with the NRC. The comment period is being extended for an additional 60 days to allow for responses from the Land-Grant University and Federal Agency libraries. The report presents the literature and INTERNET search strategies for identifying documented information sources on types of soil reuse. The report discusses how this information will be used to establish the technical bases for evaluating possible dose impacts from the reuse of soils from NRC-licensed facilities. Information received through the public comment process will assist the NRC staff in developing technical bases for characterizing soil reuse practices and related dose assessment scenarios.

Specifically, the NRC staff is seeking information through comments on Draft NUREG-1725 regarding potential uses of soil which may be excavated and transported offsite from NRC-licensed facilities for use in commerce or by the general public. This information will assist in developing a reasonably complete characterization of relevant usages for these reused soils. The soil reuse scenarios would include, but not

be limited to, soil processing, construction and agricultural uses, and other commercial and residential uses of reused soil and soil-related products. The goal of the solicitation of comments on the Draft NUREG-1725 report is to further the development of technical bases and the supporting documentation that could be used to characterize the soil reuse scenarios.

Electronic Access: Information on draft NUREG-1725 for public comment can be accessed using the following NRC website address: <http://www.nrc.gov/NRC/NUREGS/SR1725/index.html> (please note the URL is case sensitive) or by notifying the NRC staff contact, Thomas J. Nicholson.

Dated at Rockville, Maryland, this 31st day of August 2000.

For the Nuclear Regulatory Commission.

Cheryl A. Trottier,

Chief, Radiation Protection, Environmental Risk and Waste Management Branch, Division of Risk Analysis and Applications, Office of Nuclear Regulatory Research.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 35-27225]

Filings Under the Public Utility Holding Company Act of 1935, as amended ("Act")

September 1, 2000.

Notice is hereby given that the following filing(s) has/have been made with the Commission pursuant to provisions of the Act and rules promulgated under the Act. All interested persons are referred to the application(s) and/or declaration(s) for complete statements of the proposed transaction(s) summarized below. The application(s) and/or declaration(s) and any amendment(s) is/are available for public inspection through the Commission's Branch of Public Reference.

Interested persons wishing to comment or request a hearing on the application(s) and/or declaration(s) should submit their views in writing by September 22, 2000, to the Secretary, Securities and Exchange Commission, Washington, DC 20549-0609, and serve a copy on the relevant applicant(s) and/or declarant(s) at the address(es) specified below. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for hearing should identify specifically the issues of facts or law that are disputed. A person
