Providing Accountability Through Transparency Act: The Providing Accountability Through Transparency Act, Public Law 118-9, requires each agency, in providing notice of a rulemaking, to post online a brief plain-language summary of the proposed rule. The required summary of the notice of proposed rulemaking is available at <https://www.fcc.gov/proposed-rulemakings>.

Synopsis

Section 1.420(i) of the rules provides that the Commission, during a rulemaking proceeding to amend the table, may also modify a station's license or permit to specify a new community of license without affording other interested parties an opportunity to file competing expressions of interest. The Commission has stated that it will apply the modification procedure in § 1.420(i) of the rules in the limited circumstances in which: (1) the new allotment will be mutually exclusive with a station's existing allotment; (2) the new allotment will result in a preferential arrangement of the allotments according to the Commission's television allotment priorities; and (3) the new allotment will not deprive a community of its sole local transmission outlet.

The Technical Exhibit submitted with the Petition demonstrates that the proposed allotment of channel 12 at Truth or Consequences is mutually exclusive with the current allotment at Silver City, and is otherwise in compliance with all of the Commission's technical rules. The

Petitioner emphasizes that Silver City will not lose any existing service because as a permittee, TV-49 has not commenced operations in Silver City, and thus no viewers have come to rely on any existing service, a factor the Commission has found to be mitigating in the context of whether a proposal to modify a station's community of license would deprive viewers of existing service. Moreover, the Petitioner states that Silver City will continue to be served by KKAB's sister station KKAD, which is also licensed to Silver City.

The Petitioner asserts that Truth or Consequences, the county seat of Sierra County, with a 2020 Census population of 6,053 people, is a community deserving of an allotment. Truth or Consequences does not presently have a television broadcast allotment and thus the allotment would deliver a first reception service to Truth or Consequences and provide service to over 10,000 people who currently reside within a broadcast television white area (*i.e.*, persons who do not have access to any over-the-air broadcast television signals). Truth or Consequences is governed by an elected City Commission which consists of a set of commissioners who select a Commission member to act as Mayor. In addition, Petitioner states that Truth or Consequences Municipal Schools operates three elementary, one middle, and one high school serving the entirety of Sierra County. Located approximately twenty miles southeast of Truth or Consequences, is the "world's first purpose-built commercial spaceport," Spaceport America. Petitioner also notes that Truth or Consequences offers a range of municipal services, including a police department, public utilities, a public library, an animal shelter, and a municipal airport. Petitioner states that given the foregoing, it is clear that Truth or Consequences has the population and public services indicative of a community deserving of its own television station allotment. In comparison, Silver City has a 2020 Census population of 9,704 persons. Like Truth or Consequences, Silver City is also a County seat (Grant County) and

the local government provides a range of municipal services, including a fire department, police department, schools (four elementary, one middle, and two high schools) and public works. Silver City is also home of the Western New Mexico University.

We believe that the Petitioner's proposal warrants consideration. Based on an analysis by Bureau staff it appears channel 12 can be allotted to Truth or Consequences, as proposed, in compliance with the principal community coverage requirements of § 73.618 of the rules at coordinates 33–19–38.0 N and 107–18–49.0 W. The change in community of license from Silver City to Truth or Consequences would add a first local service to Truth or Consequences, including first service to over 10,000 people that currently reside in areas without any full power over-the-air television service. This meets the first and second criteria under the Commission's allotment priorities. While it would remove a second allotted service from Silver City, Silver City would continue to be served by KKAD, which is allotted to the community. In addition, since KKAB has yet to commence operation, no viewers would lose existing service as a result of this proposal. Although the population of Truth or Consequences (6,053) is less than that of Silver City (9,704), it has numerous community elements, including public services and being the home of the County seat for Sierra County, that warrant consideration. Accordingly, we seek comment on whether Petitioner's proposal to amend the table in § 73.622(j) of the rules from channel 12 at Silver City to Truth or Consequences, as shown below, is consistent with the public interest.
