Travel and in-person activities are contingent upon the safety and health conditions in the United States and the mission countries. Should safety or health conditions not be appropriate for travel and/or in-person activities, the Department will consider postponing the event or offering a virtual program in lieu of an in-person agenda. In the event of a postponement, the Department will notify the public and applicants previously selected to participate in this mission will need to confirm their availability but need not reapply. Should the decision be made to organize a virtual program, the Department will adjust fees accordingly, prepare an agenda for virtual activities, and notify the previously selected applicants with the option to opt-in to the new virtual program.

#### Timeframe for Recruitment and Applications

Mission recruitment will be conducted in an open and public manner, including publication in the **Federal Register**, posting on the Department of Commerce trade mission calendar (<http://export.gov/trademissions>) and other internet websites, press releases to general and trade media, direct mail, notices by industry trade associations and other multiplier groups, and publicity at industry meetings, symposia, conferences, and trade shows. Recruitment for the mission will begin immediately and conclude no later than October 20, 2023.

The Department of Commerce will review applications and inform applicants of selection decisions in two tranches. The first recruitment deadline will end on September 15, 2023. At most eight companies will be approved during the first recruitment deadline. The second deadline will be on October 20, 2023. Applicants from the first tranche that were not one of the eight approved companies will be considered in the second tranche. Applications received after October 20, 2023, will be considered only if space and scheduling constraints permit.
