4. *Performance Measures:* To evaluate the overall success of its research program, NIDRR assesses the quality of its funded projects through a review of grantee performance and products. Each year, NIDRR examines a portion of its grantees to determine:

- The number of products (e.g., new or improved tools, methods, discoveries, standards, interventions, programs, or devices developed or tested with NIDRR funding) that have been judged by expert panels to be of high quality and to advance the field.
- The average number of publications per award based on NIDRR-funded research and development activities in referred journals.
- The percentage of new NIDRR grants that assess the effectiveness of interventions, programs, and devices using rigorous methods.

NIDRR uses information submitted by grantees as part of their Annual Performance Reports for these reviews.

5. *Continuation Awards:* In making a continuation award, the Secretary may consider, under 34 CFR 75.253, the extent to which a grantee has made “substantial progress toward meeting the objectives in its approved application.” This consideration includes the review of a grantee’s progress in meeting the targets and projected outcomes in its approved application, and whether the grantee has expended funds in a manner that is consistent with its approved application and budget. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

¹ A tax filer who filed an income tax return other than an IRS form, such as a foreign or Puerto Rican tax form, must use the income information (converted to U.S. dollars) from the lines of that form that correspond most closely to the income information reported on a U.S. income tax return. An institution may also accept a transcript obtained from a government of a U.S. territory or commonwealth, or a foreign central government that includes all of the tax filer's income and tax information required to be verified for tax year 2014.

² An institution may accept a copy of a 2014 income tax return for tax filers who are unable to use the IRS Data Retrieval Tool or obtain an IRS Tax Return Transcript consistent with guidance that the Secretary may provide (e.g., victims of identity theft, individuals who filed an amended tax return, individuals who filed an income tax return other than an IRS form, or individuals with authentication issues with the IRS). The copy must include the signature of the tax filer or of one of the filers of a joint income tax return or the signed, stamped, typed, or printed name and address of the preparer of the income tax return and the preparer's Social Security Number, Employer Identification Number, or Preparer Tax Identification Number.

³ If a tax filer did not retain a copy of his or her 2014 tax account information and that information cannot be located by the IRS or a government of a U.S. territory or commonwealth or a foreign central government, the institution must accept—

(a) A copy of IRS Form W-2 (see footnote 4) for each source of employment income received for tax year 2014 and, if self-employed, a signed statement certifying the amount of AGI and taxes paid for that self-employment for tax year 2014; or

(b) A copy of a wage and tax statement or a signed statement by an individual who has filed an income tax return with a government of a U.S. territory or commonwealth or a foreign central government certifying the amount of AGI and taxes paid for tax year 2014.

⁴ An individual who is required to submit an IRS Form W-2 but did not maintain his or her copy should request a duplicate copy from the employer who issued the original W-2. If the individual is unable to obtain one in a timely manner, the institution may permit that individual to provide a signed statement, in accordance with 34 CFR 668.57(a)(6), that includes—

- The amount of income earned from work;
- The source of that income; and
- The reason why the IRS Form W-2 is not available in a timely manner.

DEPARTMENT OF ENERGY

[OE Docket No. EA-402]

Application to Export Electric Energy; Energia Sierra Juarez U.S., LLC

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of Application.

SUMMARY: Energia Sierra Juarez U.S., LLC (Applicant) has applied for authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before July 25, 2014.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202-586-8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On June 13, 2014, DOE received an application from the Applicant for authority to transmit electric energy from the United States to Mexico. The Applicant's request is limited to the transmission of de minimis station power from the California ISO Balancing Authority Area (CAISO BAA) to the ESJ Facility, a 156 MW wind generation facility under development in northern Mexico from which Applicant plans to market energy, capacity and/or ancillary services to the United States. The requested export authority—estimated to not exceed an instantaneous rate of 6 MW—is limited to transmission over a 230 kV radial generator-tie line known as the ESJ Gen-Tie, which is currently under construction by the Applicant's subsidiary in accordance with Presidential Permit PP-334.

In its application, the Applicant states that it does not have a franchised service area. The electric energy that the Applicant proposes to export to Mexico would be surplus energy purchased within the United States and transmitted from the CASIO BAA via the ECO Substation.

The Applicant requests export authority for a period not to extend beyond the date of termination of the associated Presidential Permit PP-334.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments on the Applicant's application to export electric energy to Mexico should be clearly marked with OE Docket No. EA-402. An additional copy is to be provided directly to Daniel A. King, Sempra U.S. Gas & Power, LLC, 101 Ash Street HQ15C, San Diego, CA 92101 and to Thomas E. Jennings, Sempra International, 101 Ash Street, HQ02-SI, San Diego, CA 92101. A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the

sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available by request to the addresses provided above or by accessing the program Web site at <http://energy.gov/node/11845>.

Issued in Washington, DC, on June 17, 2014.

Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.
