

protection of investors and the public interest. The Exchange believes that the introduction of SSDOs will provide investors with the ability to invest in options that settle to a value that represents the accumulated dividend amounts paid by a specific issuer over a specified accrual period. This will protect investors and the public interest by allowing market participants to hedge against potential declines in dividend income from long positions in the underlying stocks, which can be significant over long holding periods. In addition, the Exchange understands that dividend options trade in the other-the-counter [sic] marketplace and believes that the introduction of SSDOs will attract order flow to the Exchange, increase the variety of listed options to investors, and provide a valuable hedging tool to investors. Similarly, the proposed rule change will permit market participants to trade SSDOs in an environment subject to exchange-based rules that provides price transparency and eliminates contra-party risk through the role of the OCC as issuer, thus removing impediments to a free and open market consistent with the Act. Finally, SSDOs will be subject to CBOE's rules, regulations and oversight, which provide enhanced investor protection and market surveillance.

Voice One Corp.; Order of Suspension of Trading
