

statement that would convey clinically useful information to veterinary practitioners and other consumers of veterinary biologics. At that meeting, the American Veterinary Medical Association, which represents the single largest group of consumers of veterinary biologics, informed APHIS that its members consider labeling indications statements that are based on the guidance provided in VSM 800.202 to be confusing and expressed a desire for indications statements that provide insight into the actual performance of the product, including summaries of safety and efficacy data. On the other hand, representatives of the trade associations representing veterinary biologics manufacturers have remarked that their members expend significant resources on studies to provide data to support labeling that includes indications statements that emphasize the unique properties of their product versus that of a competitor. They expressed concern about any change to the labeling regulations that would deemphasize product differences or require public disclosure of proprietary information that could compromise manufacturers' competitive positions in the marketplace.

In response to the concerns expressed by these stakeholders, APHIS has developed a draft policy guideline (concept paper) concerning the wording of indications statements used in veterinary biologics labeling. The draft guideline differs from current guidance regarding label claims in VSM 800.202 in that a single indications statement (e.g., "This product has been shown to be effective for the vaccination of healthy animals X weeks of age or older against * * *") would replace current indications statements that may reflect any of four different levels of effectiveness. In addition to a standardized indications statement, the draft guideline also provides for the public disclosure of a summary (with confidential business information removed) of the efficacy and safety data submitted to APHIS in support of the issuance of the product license. The draft guideline may be viewed on the *Regulations.gov* Web site (see **ADDRESSES** above) or obtained from the person listed under **FOR FURTHER INFORMATION CONTACT**.

We are holding a public meeting to solicit input and discussion of any issues that are pertinent to this concept. This meeting is scheduled for Thursday, June 16, 2011. Registration information and copies of the agenda for the meeting may be obtained from the person listed under **FOR FURTHER INFORMATION CONTACT**. The public meeting will begin

at 9 a.m. and is scheduled to end at 3 p.m. but may end earlier if all persons wishing to comment have been heard. The meeting will be recorded, and information about obtaining a transcript will be provided at the meeting. If you require special accommodations, such as a sign language interpreter, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

You may also submit comments regarding the concept paper using one of the methods described under **ADDRESSES** above.

Done in Washington, DC, this 18th day of May 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
