SUPPLEMENTARY INFORMATION: LMDC, as lead agency, in cooperation with HUD and the Port Authority, released the Draft Generic Environmental Impact Statement on January 23, 2004 (69 FR 3382) and the Final Generic Environmental Impact Statement (FGEIS) on April 27, 2004 (69 FR 22866) for the World Trade Center Memorial and Redevelopment Plan (Approved Plan). On July 8, 2004 (69 FR 42178) LMDC published the Record of Decision and the Findings Statement for the Approved Plan and adopted the General Project Plan (GPP) for LMDC's World Trade Center Memorial and Cultural Program. Implementation of the Approved Plan began with the formal groundbreaking for Freedom Tower on July 4, 2004.

As implementation proceeded, LMDC, working in cooperation with HUD, the Port Authority, the City of New York, and Silverstein Properties, Inc. and its affiliates as the Port Authority's Net Lessees, has continued to develop the Approved Plan. Because the Approved Plan was generic, preliminary design and engineering led to certain adjustments and refinements based on aesthetics, commercial viability, cost, and practical considerations. Many of these refinements are described in the proposed GPP amendments preliminarily adopted by LMDC on December 16, 2004 (Proposed GPP Amendments). LMDC released the Proposed GPP Amendments for public review on December 27, 2004, and held a public hearing on the Proposed GPP Amendments on January 26, 2005, at St. John's University in Lower Manhattan to receive public comments. The public comment period remained open until March 10, 2005.

The Proposed Refinements would introduce several refinements to the physical forms and operational aspects of the Approved Plan, including the relocation of the entrance ramp for the underground vehicular network from the north side of Liberty Street adjacent to the World Trade Center (WTC) Memorial to the south side of Liberty Street, raising Liberty Park above grade by 20 to 30 feet to accommodate the relocation, increasing the at-grade separation of Freedom Tower and the Performing Arts Complex, shifting office space square footage within the Project Site, as defined below, specifying streetwall heights and setbacks, and changing certain pedestrian and vehicular circulation, parking, street direction, open space boundaries and street and sidewalk widths. Alternatives considered include allowing left turns out of the vehicular ramp onto Liberty Street westbound, locating the vehicular
