SUPPLEMENTARY INFORMATION:

Notice is hereby given that a petition has been received from the Commonwealth of Massachusetts requesting a determination by the Regional Administrator, U.S. Environmental Protection Agency, pursuant to Section 312(f)(3) of Public Law 92-500 as amended by Public Law 95-217 and Public Law 100-4, that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the Outer Cape Cod area.

The Outer Cape Cod No Discharge Area will encompass the tidal waters for Chatham, Orleans, Eastham, Wellfleet, Truro, and Provincetown, and from mean high water out to the State/Federal boundary. Within Nauset Harbor, the NDA covers all tidal waters and all embayments including: Nauset Bay, Salt Pond, Salt Pond Bay, Woods Cove, Rachel Cove, and Mill Pond.

The proposed No Discharge Area for the Outer Cape Cod:

Waterbody/general area	From longitude	From latitude	To longitude	To latitude
The westernmost landward boundary of the NDA starting on the south side of Chatham is an imaginary line drawn between the western part of the outlet of Stage Harbor and the northern tip of Monomoy Island (All state waters east of Monomoy Island are included in this NDA).	69°59'0" W	41°39'26" N	69°59'0" W	41°37'20" N
The southwestern boundary then continues from the southern tip of Monomoy Island through two navigational aids to the state/federal waters boundary.	70°0'36" W	41°32'30" N	70°0'11" W	41°29'15" N
The landward boundary of the NDA follows the mean high water line from Chatham to Provincetown except at an imaginary line drawn between: (This imaginary line is across the mouth of Pleasant Bay, which is already an NDA).	69°56'36" W	41°39'40" N	69°56'6" W	41°40'56" N

Waterbody/general area	From longitude	From latitude	To longitude	To latitude
The westernmost boundary on the northern side of Cape Cod is an imaginary line drawn from three miles off shore to the mean high water line in Provincetown (This imaginary line is contiguous with the Cape Cod Bay NDA). The eastern edge of the boundary is contiguous with the state/federal line also known as the Submerged Lands Act boundary line and Territorial Sea boundary.	70°10'0" W	42°7'59" N	70°10'0" W	42°4'47" N

The boundaries were chosen based on easy line-of-sight locations and generally represent all navigational waters.

There is only one harbor within the proposed Outer Cape Cod NDA, which is Nauset Harbor. Small skiffs owned by the residents of the area are the primary users of Nauset Harbor. Other vessels that would use the harbor would most likely come from Provincetown Harbor, Pleasant Bay, or Chatham Harbor, all of which are currently NDAs and have pumpout facilities for these boaters. Massachusetts has certified that there is one landside pumpout facility at Goose Hummock Marine in Orleans within the proposed area available to the boating public. The location, contact

information, hours of operation, and water depth are provided at the end of this petition.

Massachusetts has provided documentation indicating that the total vessel population is estimated to be 519 in the proposed area. It is estimated that 91 of the total vessel population may have a Marine Sanitation Device (MSD) of some type.

The majority of coastline of the proposed area is the Cape Cod National Seashore, a 43,500 acre park established by Congress in 1961 to, "preserve the nationally significant and special cultural and natural features, distinctive patterns of human activity, and ambience that characterize the Outer Cape, along with the associated scenic,

cultural, historic, scientific, and recreational values", and to, "provide opportunities for current and future generations to experience, enjoy, and understand these features and values."

The various beaches, marshes, and harbors and their recreational opportunities attract thousands of visitors to Cape Cod every year. On the eastern shore of Cape Cod, from Chatham to Provincetown there are 24 bathing beaches covering over thirty miles of coastline.

The area contains known habitat for soft shelled clam, surf clam, sea scallop, quahog, ocean quahog, and blue mussel; all important recreational and commercial species.
