

In 2020, the Commission adopted a Report and Order that resolved the remaining issues regarding carriage election notice rules for small broadcast stations and MVPDs. Electronic Delivery of MVPD Communications, Modernization of Media Regulation Initiative, MB Docket Nos. 17–105, 17–317, Report and Order, FCC 20–14, 2020 WL 948697 (rel. Feb. 25, 2020) (2020 Report and Order). Pursuant to that decision, the obligations of certain small broadcasters and MVPDs were slightly modified.

This information collection is being revised to reflect the changes to 47 CFR 76.64(h) as well as other new obligations adopted in the 2020 Report and Order, which require review and approval from the Office of Management and Budget (OMB).

47 CFR 76.64(h)(5) is amended to require low power television stations and non-commercial educational translator stations that are qualified under 47 CFR 76.55 and retransmitted by an MVPD to, beginning no later than July 31, 2020, respond as soon as is reasonably possible to messages or calls from MVPDs that are received via the email address or phone number the station provides in the Commission's Licensing and Management System (LMS) database.

A qualified Low Power Television (LPTV) station that changes its carriage election must send an election change notice to each affected MVPD's carriage election-specific email address by the carriage election deadline. Such change notices must include, with respect to each station covered by the notice: The station's call sign, the station's community of license, the DMA where the station is located, the specific change being made in election status, and an email address and phone number for carriage-related questions. LPTV notices to cable operators need to identify specific cable systems for which a carriage election applies only if the broadcaster changes its election for some systems of the cable operator but not all. In addition, the broadcaster must carbon copy *ElectionNotices@FCC.gov*, the Commission's election notice verification email inbox, when sending its carriage elections to MVPDs.

All qualified LPTV stations, whether being carried pursuant to must carry or retransmission consent, must send an email notice to all MVPDs that are or will be carrying the station no later than the next carriage election deadline of October 1, 2020. Qualified LPTVs must do so even if they are not changing their carriage status from the current election cycle. These notifications must be sent to an MVPD's carriage election-specific

email address, must be copied to *ElectionNotices@FCC.gov*, and must include the same information required for a change notification except that the notification may simply confirm the existing carriage status rather than a change in status.

All qualified NCE translator stations must provide email notice to all MVPDs that are or will be carrying the translator no later than the next carriage election deadline of October 1, 2020. Similar to qualified LPTVs, these notifications must be sent to an MVPD's carriage election-specific email address, must be copied to *ElectionNotices@FCC.gov*, and must include the station's call sign, the station's community of license, and the DMA where the station is located and within which it has elected to be carried.

Obligation to Respond: Mandatory and Voluntary. For Support Recipients, the obligation to report is mandatory. For all other DIRS participants, the obligation to report is voluntary. Statutory authority for collecting this

information from satellite providers is contained in 47 U.S.C. 151 et. seq., 154(i), 218, 303(r) of the Communications Act of 1934, as amended.

Total Annual Burden: 16,320 hours.

Total Annual Costs: No Cost(s).

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality:

The information collection from respondents shall be treated as presumptively confidential upon filing. The Commission will limit direct access to DIRS reports to select Commission staff and, with protections at least as strong as required by the Freedom of Information Act (FOIA), with select federal and potentially state agency partners, including the Department of Homeland Security (DHS). The Commission will not publish the individual submissions but may publish this information on an aggregated basis in daily communications status reports. The Commission will also work with respondents to ensure that any concerns regarding the confidentiality of their DIRS filings are resolved in a manner consistent with Commission rules.

Needs and Uses: The Commission launched DIRS in 2007 pursuant to its mandate to promote the safety of life and property through the use of wire and radio communication as required by the Communications Act of 1934, as amended. DIRS is a voluntary, efficient and web-based system that communications companies may use to report their infrastructure status during times of crisis (e.g., related to a disaster). DIRS uses a number of template forms tailored to different communications sectors (i.e., wireless, wireline, broadcast, and cable) to facilitate the entry of this information. To use DIRS, a company first inputs its emergency contact information. After this, they submit information using the template form appropriate for their communications sector. OMB initially approved the DIRS information collection in 2007 under OMB Control Number 3060–1003, and OMB has approved multiple revisions and extensions of the collection since that time. (See OMB Control No. 3060–1003; 07/21/2007; 06/08/2012; 07/02/2015; 07/17/2018.)

The Commission is now revising the DIRS information collection to provide for one new form tailored to satellite communications providers and to update its previous burden estimates. First, the new form has the same general scope as existing forms, already approved by OMB, but is tailored to satellite providers’ networks. Since OMB’s 2007 approval, satellite

providers have been expressly authorized to participate in DIRS, but DIRS does not currently include a tailored form for them to do so. Collecting this information from satellite providers via DIRS is necessary to meet the Commission’s goals of restoring communications quickly and ensuring that emergency and defense personnel have access to effective communications during disaster events, thus helping fulfill the Commission’s public safety mandate.

Second, as a part of the Commission’s response to the 2017 hurricane season, the Commission adopted the *PR and USVI Funds Order* to improve Puerto Rico and the U.S. Virgin Island’s communications networks’ resiliency and recovery efforts, amongst other purposes. (*PR and USVI Funds Order*, FCC 19–95, para. 1–9). The *PR and USVI Funds Order* requires Support Recipients to report in DIRS. The Commission requests a revision of the currently approved collection to include mandatory DIRS reporting for Support Recipients. Mandatory DIRS reporting will allow the Commission to track networking hardening efforts and increase Support Recipients’ accountability, which the Commission expects will improve network hardening efforts and make networks more resilient in future. The *PR and USVI Funds Order* does not otherwise alter DIRS.
