[Project No. 13220–001]

Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications; Pacific Gas and Electric Company

On September 1, 2011, Pacific Gas and Electric Company (PG&E) filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Kings River Pumped Storage Project (project) to be located on North Fork Kings River, Short Hair Creek, and Lost Canyon Creek, about 30 miles east of Shaver Lake in Fresno County, California. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of one of the following two possible designs:¹ (1) Option 1 consisting of (i) a dam in the Lost Canyon area, 200 feet high and 700 feet long; (ii) a reservoir with a surface elevation of 7,720 feet above mean sea level (msl) and an estimated storage capacity of 15,695 acre-feet; (iii) an 8,000-foot-long power tunnel including intake structure, penstock, and tailrace; (2) option 2 consisting of (i) a dam in the Lower Short Hair Creek area with a height of 175 feet high and length of 1,700 feet; (ii) a reservoir with full pool elevation of 8,245 feet msl and storage capacity of 16,290 acre-feet; (iii) a 14,000-foot-long power tunnel including intake structure, penstock, and tailrace; (3) the existing Wishon reservoir, with a surface area of 1,025 acres, storage capacity of 128,639 acre-feet, and a normal water surface elevation of 6,550 feet msl, acting as the lower reservoir for either proposed plan; (4) a powerhouse with a total installed capacity from 380 to 1,140 megawatts; (5) a transmission line between 2,000 and 5,000 feet long and of 230 or 500 kilovolts; and (6) appurtenant facilities.

¹ PG&E would also investigate the possible addition of equipment and other infrastructure within the existing Helms Project (FERC Project No. 2375), which uses the existing Courtland reservoir as the upper reservoir and the existing Wishon reservoir as a lower reservoir. Any such addition may require an amendment of the existing license.

The proposed project would have an annual production between 508 and 2,031 gigawatt hours.

Notice of Filing; Crosstex LIG, LLC

Take notice that on October 7, 2011, Crosstex LIG, LLC (Crosstex) submitted a revised Statement of Operating Conditions (SOC) for services provided under Section 311 of the Natural Gas Policy Act of 1978 ("NGPA"). Crosstex states it is filing the SOC in searchable PDF format.

Any person desiring to participate in this rate proceeding must file a motion to intervene or to protest this filing in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as indicated below. Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC.
