Petition to Revoke Tolerances Established for Carbaryl; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is seeking public comment on a January 10, 2005, petition from the Washington Toxics Coalition (Washington Toxics), available in docket number EPA-HQ-OPP-2006-0801, requesting that the Agency revoke all tolerances for the pesticide carbaryl.

The petitioner, Washington Toxics, requests this action to obtain what they believe would be proper application of the safety standards of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetic Act (FFDCA), section 408, as amended by the Food Quality Protection Act (FQPA) of 1996.

Washington Toxics is filing this petition in response to a Notice of Availability for the Carbaryl Interim Reregistration Eligibility Decision (IRED), published in the **Federal Register** on October 27, 2004. The carbaryl IRED is available on the website <http://www.regulations.gov> under docket number EPA-HQ-OPP-2003-0376 and on the Agency's pesticide web page, <http://www.epa.gov/pesticides/reregistration/status.htm>.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders, including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Since others also may be interested, the Agency has not

attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date, and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.
- vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- viii. Make sure to submit your comments by the comment period deadline identified.

II. What Action is the Agency Taking?

EPA requests public comment during the next 30 days on a petition (available in docket number EPA-HQ-OPP-2006-0801) received from the Washington Toxics Coalition requesting that the Agency revoke all tolerances (maximum

legal residue limits) for the pesticide carbaryl. The petitioner claims that EPA cannot make a finding that there is a reasonable certainty of no harm from dietary residues of carbaryl and, therefore, EPA must revoke all tolerances established under Section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act (FQPA) of 1996. In addition, Washington Toxics is petitioning EPA to cancel all uses of carbaryl because Washington Toxics believes carbaryl cannot perform its intended function without causing unreasonable adverse effects on the environment. Washington Toxics filed its petition pursuant to section 408(d) of FFDCA and in response to a Notice of Availability for the Carbaryl Interim Reregistration Eligibility Decision (IRED), published in the **Federal Register** on October 27, 2004. EPA's assessment of human health and environmental risks of carbaryl, and finding on whether the tolerances for carbaryl comply with the safety standard in FFDCA Section 408, as amended by the FQPA, are contained in the Interim Reregistration Eligibility Decision document for carbaryl, which is available on EPA's website at <http://www.regulations.gov>, under docket number EPA-HQ-OPP-2003-0376 and on the pesticide web page at <http://www.epa.gov/pesticides/reregistration/status.htm>.
