#### Applications Received

USFWS-Stockton requests a 3-year permit (13791) for take of juvenile Sacramento River winter-run Chinook salmon, Central Valley spring-run Chinook salmon, and Central Valley steelhead associated with research on salmonid migratory behavior at monitoring locations in the Sacramento River basin and in the Sacramento-San Joaquin Delta, in California. USFWS-Stockton requests authorization for an estimated annual take of 3,000 juvenile Central Valley salmonids for three consecutive years resulting from capture (by seine, trawl, gill and fyke net), handling, anesthetizing, measuring, tissue sampling, scale sampling, tag scanning, and release of fish. A subsample of incidental mortalities may be retained by the U.S. Fish and Wildlife Service office in Red Bluff, CA as a teaching collection and as a source of tissues for genetic and life history analysis. USFWS-Stockton requests authorization for an estimated total take of 39 adult and 2591 juvenile winter-run Chinook salmon (that includes 12.8 percent and 2.0 percent incidental mortality, respectively), 29 adult and 12317 juvenile spring-run Chinook salmon (that includes 17.2 percent and 1.2 percent incidental mortality), 49 adult and 632 juvenile steelhead (12.2 percent and 3.5 percent incidental mortality), and 14 adult and 15 juvenile green sturgeon (no associated mortality), resulting from capture, handling, measuring, and releasing of fish.

FISHBIO requests a 5-year permit (14092) for incidental take of threatened Central Valley steelhead in the lower Stanislaus River associated with a study that aims to characterize fish species composition, abundance, and seasonal distribution; evaluate juvenile Chinook salmon rearing extent, timing, and locations; and determine potential limiting factors for juvenile rearing and mitigation. FISHBIO requests authorization for an estimated annual take of 34 adult and 249 juvenile steelhead (that includes 5.9 percent and 5.6 percent incidental mortality, respectively) resulting from capture by seine, pack or boat electrofishing; handling, measuring, and releasing of fish.

DPS of green sturgeon associated with research studies located throughout the Sacramento-San Joaquin Bay-Delta that aim to evaluate the effects of water export facilities (State Water Project and Central Valley Water Project) on aquatic organisms. IEP requests authorization for an estimated annual take of 38 adult and 289 juvenile winter-run Chinook salmon (that includes 10.5 percent and 7.3 percent incidental mortality, respectively), 105 adult and 1894 juvenile spring-run Chinook salmon (that includes 9.5 percent and 6.3 percent incidental mortality), 37 adult and 240 juvenile steelhead (that includes 8.1 percent and 5.4 percent incidental mortality), 2 juvenile Central California Coast steelhead (no mortality), and 272 adult and sub-adult green sturgeon (that includes 4.0 percent of incidental mortality), resulting from capture (by various methodologies, including net, seine, hook-and-line, and boat electrofishing) handling, biological sampling, and releasing of fish.

### National Telecommunications and Information Administration

#### Notice: Call for Nominations, Online Safety and Technology Working Group

**AGENCY:** National Telecommunications and Information Administration

**ACTION:** Notice and Request for Nominations of Representatives to Serve on Working Group

**SUMMARY:** The National Telecommunications and Information Administration (NTIA) is seeking nominations of individuals to represent the business community, public interest groups, and other appropriate groups interested in serving on the NTIA Online Safety and Technology Working Group (OSTWG) for a single fifteen (15) month term to commence in January 2009. At the conclusion of the working group's term, the OSTWG will provide a report to the Assistant Secretary for Communications and Information and NTIA Administrator and to Congress on ways to promote and to preserve a safe environment for children using the Internet.

**DATES:** Nominations must be postmarked or electronically transmitted on or before December 12, 2008.

**SUPPLEMENTARY INFORMATION:** On October 10, 2008, the President signed into law the "Broadband Data Improvement Act" (the Act), Pub. L. No. 110-385. Section 214 of that Act directs

NTIA to establish the OSTWG to review and evaluate:

- The status of industry efforts to promote online safety through educational efforts, parental control technology, blocking and filtering software, age-appropriate labels for content or other technologies or initiatives designed to promote a safe online environment for children;
- The status of industry efforts to promote online safety among providers of electronic communications services and remote computing services by reporting apparent child pornography, including any obstacles to such reporting;
- The practices of electronic communications service providers and remote computing service providers related to record retention in connection with crimes against children; and
- The development of technologies to help parents shield their children from inappropriate material on the Internet.

The OSTWG must report its findings and recommendations to the Assistant Secretary and to Congress within one (1) year after its first meeting.

The Act specifies that the OSTWG must be comprised of "representatives of relevant sectors of the business community, public interest groups, and other appropriate groups and Federal agencies." The "business community" includes, at a minimum, Internet service providers, Internet content providers (especially targeted towards children), producers of blocking and filtering software, operators of social networking sites, search engines, Web portals, and domain name service (DNS) providers. Public interest groups may include organizations that work on behalf of children or study children's issues, Internet safety groups, and education and academic entities. NTIA is seeking representatives from a broad spectrum of organizations to obtain the best information available on the state of online safety.

The OSTWG will have up to 30 members. Appointments will be for a single fifteen (15) month term. The Assistant Secretary seeks representatives of organizations with expertise and knowledge concerning the issues the OSTWG will study, and upon which it will report, as described in the Act, especially individuals who can represent the views of an industry sector or a larger public interest group. NTIA will also work with relevant federal agencies to identify appropriate representatives to serve on the working group.

The Act exempts the OSTWG from the Federal Advisory Committee Act. Members will not receive compensation
