International Trade Administration

Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Advance Notification of Sunset Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

Background

Every five years, pursuant to the Tariff Act of 1930, as amended (the Act), the Department of Commerce (Commerce) and the International Trade Commission automatically initiate and conduct reviews to determine whether revocation of a countervailing or antidumping duty order or termination of an investigation suspended under section 704 or 734 of the Act would be likely to lead to continuation or recurrence of dumping or a countervailable subsidy (as the case may be) and of material injury.

Upcoming Sunset Reviews for June 2023

Pursuant to section 751(c) of the Act, the following Sunset Reviews are scheduled for initiation in June 2023 and will appear in that month's *Notice of Initiation of Five-Year Sunset Reviews* (Sunset Review).

Commerce's procedures for the conduct of Sunset Review are set forth in 19 CFR 351.218. The *Notice of Initiation of Five-Year (Sunset) Review* provides further information regarding what is required of all parties to participate in Sunset Review.

Pursuant to 19 CFR 351.103(c), Commerce will maintain and make available a service list for these proceedings. To facilitate the timely preparation of the service list(s), it is requested that those seeking recognition

as interested parties to a proceeding contact Commerce in writing within 10 days of the publication of the Notice of Initiation.

Please note that if Commerce receives a Notice of Intent to Participate from a member of the domestic industry within 15 days of the date of initiation, the review will continue.

Thereafter, any interested party wishing to participate in the Sunset Review must provide substantive comments in response to the notice of

initiation no later than 30 days after the date of initiation. Note that Commerce has modified certain of its requirements for serving documents containing business proprietary information, until further notice.¹

This notice is not required by statute but is published as a service to the international trading community.

Light-Walled Rectangular Pipe and Tube From the People's Republic of China: Preliminary Results of the Antidumping Duty Administrative Review; 2021-2022

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) is conducting the administrative review of the antidumping duty order on light-walled rectangular pipe and tube (LWRPT) from the People's Republic of China (China). The period of review (POR) is August 1, 2021, through July 31, 2022. Commerce preliminarily determines that Hangzhou Ailong Metal Product Co., Ltd. (Ailong) failed to establish its eligibility for a separate rate and, therefore, is part of the China-wide entity. We invite interested parties to comment on these preliminary results.

DATES: Applicable May 2, 2023.

FOR FURTHER INFORMATION CONTACT: Magd Zalok, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4162.

SUPPLEMENTARY INFORMATION:

Background

On August 2, 2022, Commerce published in the *Federal Register* a notice of opportunity to request an administrative review of the antidumping duty order on LWRPT from China¹ for the POR.² On August 31, 2022, Home Depot U.S.A., Inc. (THD), a U.S. importer of LWRPT from China, requested a review of Ailong, a producer and exporter of subject

merchandise.³ Subsequently, we initiated an administrative review of the *Order* with respect to Ailong.⁴

Scope of the Order

The merchandise subject to this *Order* is certain welded carbon quality light-walled steel pipe and tube, of rectangular (including square) cross section, having a wall thickness of less than 4 mm. The term carbon-quality steel includes both carbon steel and alloy steel which contains only small amounts of alloying elements. Specifically, the term carbon-quality includes products in which none of the elements listed below exceeds the quantity by weight respectively indicated: 1.80 percent of manganese, or 2.25 percent of silicon, or 1.00 percent of copper, or 0.50 percent of aluminum, or 1.25 percent of chromium, or 0.30 percent of cobalt, or 0.40 percent of lead, or 1.25 percent of nickel, or 0.30 percent of tungsten, or 0.10 percent of molybdenum, or 0.10 percent of niobium, or 0.15 percent vanadium, or 0.15 percent of zirconium. The description of carbon-quality is intended to identify carbon-quality products within the scope. The welded carbon-quality rectangular pipe and tube subject to this *Order* is currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 7306.61.50.00 and 7306.61.70.60. While HTSUS subheadings are provided for convenience and CBP's customs purposes, our written description of the scope of the *Order* is dispositive.

Methodology

Commerce is conducting this administrative review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213.

China-Wide Entity

Commerce no longer considers the non-market economy (NME) entity as an exporter conditionally subject to an antidumping duty administrative review.⁵ Accordingly, the NME entity will not be under review unless Commerce specifically receives a request for, or self-initiates, a review of the NME entity. In this administrative

review, no party requested a review of the China-wide entity and we have not self-initiated a review of the China-wide entity. Because we are not conducting a review of the China-wide entity, the China-wide entity's entries are not subject to the review, and the rate applicable to the China-wide entity is not subject to change as a result of this review. The weighted-average dumping margin previously determined for the China-wide entity is 255.07 percent.⁶

Preliminary Results of Review

The deadline for Ailong to submit a no-shipment certification, separate rate application (SRA), or separate rate certification (SRC) was November 10, 2022.⁷ Ailong, the only company under review, did not submit an SRA or SRC. Thus, Commerce preliminarily determines that Ailong has not demonstrated its eligibility for a separate rate and, therefore, Ailong is part of the China-wide entity and subject to the China-wide rate of 255.07 percent.

Public Comment

Interested parties are invited to comment on the preliminary results and may submit case briefs or written comments, filed electronically via Enforcement and Compliance's Antidumping Duty and Countervailing Duty Centralized Electronic Service System (ACCESS), within 30 days after the date of publication of these preliminary results of review.⁸ ACCESS is available to registered users at <https://access.trade.gov>. Rebuttal briefs, limited to issues raised in the case briefs, must be filed within seven days after the time limit for filing case briefs.⁹ Parties who submit case or rebuttal briefs in this proceeding are requested to submit with each argument a statement of the issue, a brief summary of the argument, and a
