NUCLEAR REGULATORY COMMISSION

[Docket Nos. STN 50-528, STN 50-529, and STN 50-530]

In the Matter of Public Service Company of New Mexico (Palo Verde Nuclear Generating Station, Units 1, 2, and 3); Superseding Order Approving Modified Application Regarding Proposed Corporate Restructuring

I

Public Service Company of New Mexico (PNM) holds minority ownership interests (both owned and leased) in Palo Verde Nuclear Generating Station (Palo Verde) Units 1, 2, and 3, and in connection therewith is a holder of Facility Operating Licenses Nos. NPF-41, NPF-51, and NPF-74 for Palo Verde. The facility is located in Maricopa County, Arizona. Other co-

licensees for Palo Verde are Arizona Public Service Company (APS) (owner or lessee of a 29.1 percent share of each of the three units), Salt River Project Agricultural Improvement and Power District (owner of a 17.49 percent share), El Paso Electric Company (owner of a 15.8 percent share), Southern California Edison Company (owner of a 15.8 percent share), Southern California Public Power Authority (owner of a 5.91 percent share), and Los Angeles Department of Water and Power (owner of a 5.70 percent share). APS is the licensed operator of the Palo Verde units. The remaining licensees hold possession-only licenses.

II

Pursuant to section 184 of the Atomic Energy Act of 1954, as amended, and 10 CFR 50.80, PNM filed an application dated March 3, 2000, requesting approval of the indirect transfer of the Palo Verde licenses, to the extent held by PNM, to a new holding company to be established, then proposed to be named Manzano Corporation (Manzano). Supplemental information on this application was forwarded to the NRC by PNM's outside counsel, Shaw Pittman, in letters dated August 14, August 17, and September 7, 2000. The new holding company was to be established to implement the public utility restructuring requirements of the New Mexico Electric Utility Industry Restructuring Act of 1999. The proposed restructuring of PNM would have encompassed the formation of Manzano and Manzano becoming the holding company for PNM, the transfer by PNM of its electric and gas transmission and distribution businesses to an affiliated company to be named "Public Service Company of New Mexico" (with PNM and such affiliated company being under common control by Manzano), and a change in PNM's name to Manzano Energy Corporation (Manzano Energy). By application dated April 26, 2000, APS requested approval, pursuant to 10 CFR 50.90, of proposed conforming amendments to reflect in the Palo Verde licenses the name change of PNM to Manzano Energy Corporation that would have occurred in connection with the planned restructuring. APS would have retained its existing ownership interest in, and would have remained the licensed operator of Palo Verde after the above restructuring of PNM, and otherwise would not have been involved in the restructuring. Similarly, none of the other co-licensees would have been involved in the restructuring of PNM. No physical changes to the facility or operational changes were being proposed in the

applications filed by PNM and APS. Notice of the applications and an opportunity for hearing was published in the **Federal Register** on May 26, 2000 (65 FR 34370). No written comments or hearing requests were received.

III

By an Order dated September 29, 2000, the application regarding the proposed restructuring of PNM was approved, subject to certain conditions contained in that Order. To date, the proposed restructuring has not occurred. The application for conforming license amendments was also approved by the Order, but the amendments were to be issued and made effective only at the time the proposed restructuring action was completed, including in particular the name change of PNM.

Subsequently, by letters dated March 20 and May 15, 2001, from counsel for PNM, the Commission was informed that in March of 2001 the State of New Mexico enacted into law Senate Bill 266, "An Act Relating to Electric Utilities; Delaying Customer Choice Provisions and Implementation of the Electric Utility Industry Restructuring Act of 1999" (SB 266). With respect to PNM's proposed restructuring that was the subject of the September 29, 2000, Order, SB 266 does not affect PNM's plans to establish a new holding company for PNM. However, it delays until January 1, 2007, the start of customer choice in the retail electricity market, and, therefore, delays PNM's plans to separate its transmission and distribution assets into a new affiliate. Any such plans for separation will now be required to be refilled with the New Mexico Public Regulation Commission (NMPRC) by 2005, and approved by NMPRC by 2006.

According to the March 20 and May 15, 2001, submissions, in light of SB 266, there have been several changes to the information provided in the March 3, 2000, application and supplements thereto. In summary, in contrast to earlier information provided in the March 3, 2000, application and supplements thereto, PNM was an "electric utility," under the definition set forth in 10 CFR 50.2, in the year 2000, and expects to continue to be such until at least 2007, notwithstanding the establishment of a new holding company; the name of the company, which has already been formed, to eventually become the holding company for PNM is "PNM Resources, Inc." and it will keep that name following its establishment as PNM's holding company. PNM will not change its name at this time.
