#### SUPPLEMENTARY INFORMATION:

#### I. Abstract

This request is for extension of a currently approved information collection.

A prohibited species donation (PSD) program for salmon and halibut has effectively reduced regulatory discard of

salmon and halibut by allowing fish that would otherwise be discarded to be donated to needy individuals through tax-exempt organizations. Vessels and processing plants participating in the donation program voluntarily retain and process salmon and halibut bycatch. An authorized, tax-exempt distributor, chosen by the National Marine Fisheries Service (NMFS), is responsible for monitoring the retention and processing of fish donated by vessels and processors. The authorized distributor also coordinates the processing, storage, transportation, and distribution of salmon and halibut. The PSD program requires an information collection so that NMFS can monitor the authorized distributors' ability to effectively supervise program participants and ensure that donated fish are properly processed, stored, and distributed.

## SUPPLEMENTARY INFORMATION:

## I. Abstract

This request is for a new information collection.

Numerous management measures have recently been proposed or implemented that affect recreational charter boat fishing for Pacific halibut off Alaska, including the adoption of a Halibut Catch Sharing Plan (78 FR 75843, December 12, 2013) in International Pacific Halibut Commission Regulatory Areas 2C and 3A that alters the way Pacific halibut is allocated between the guided sport (i.e., the charter sector) and the commercial halibut fishery. The Catch Sharing Plan (CSP) formalizes the annual process of allocating catch between the
