In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the

agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Survey of Organized Consumer Self-Help Entities—(OMB No. 0930-0214, extension)—The mutual support and self-help movement in the United States has mushroomed, and significant numbers of mental health consumer-operated businesses and services are emerging. Increasingly, these groups, organizations, and business are providing support and services to mental health consumers and family members as a complement to, or substitution for, traditional mental health services. The purposes of this

project of SAMHSA's Center for Mental Health Services are to estimate the number of these mental health groups, organizations, and businesses nationwide and to describe their characteristics—structure, types of activities engaged in, approaches to well-being and recovery, resources, and linkages to other community groups, organizations, and businesses and services, such as the mental health service delivery system. The survey will gather information from a sample of approximately 3,900 mutual support groups and self-help organizations run by and for recipients of mental health services and/or their family members and consumer-operated businesses and services. Computer Assisted Telephone Interviewing (CATI) will be used to conduct interviews with in-scope groups, organizations and businesses. This extension will allow for completion of the survey. The total response burden estimate is shown below.

Instrument	Number of respondents	Responses/ respondent	Average burden/ response (Hrs)	Total burden (Hrs)
Universe Development Contacts	2736	1	.17	465
Screeners	3,933	1	.17	668
Questionnaire	3,933	1	.42	1,652
Total	2,785
