

plan for EPA's Office of Research and Development (ORD) and the Office of Water entitled "Action Plan for Beaches and Recreational Water." The Beaches Act and ORD's strategic plan has identified research on effects of microbial pathogens in recreational waters as a high-priority research area with particular emphasis on developing new water quality indicator guidelines for recreational waters. The EPA has broad legislative authority to establish water quality criteria and to conduct research to support these criteria. This data collection is for a series of *epidemiological studies to evaluate exposure to and effects of microbial pathogens in marine and fresh recreational waters* as part of the EPA's research program on exposure and health effects of microbial pathogens in

recreational waters. The research plan includes piloting the collection of both recreational information and water quality information during the summer months of 2002. Multiple sites with refined study design will be conducted in 2003, 2004 and 2005. The information collected by this study program will be used to estimate the relationship between water quality indicators and health effects. The questionnaire health data will be compared with routinely collected water quality measurements. The analysis will focus on determining whether any water quality parameters are associated with increased prevalence of swimming-related health effects.

Burden Statement

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

TABLE 1.—ESTIMATED ANNUAL RESPONDENT BURDEN

Type of respondent	Respondent activities	Estimated number of respondents	Burden hours	Frequency	Annual reporting burden	Annual cost
Parent	Beach Interview	1500	0.40	1	600	^a \$8,832
Parent	Complete home interview I (80%) ..	1200	0.33	1	396	^a 5,830
Parent	Complete home interview II (80%) ..	960	0.17	1	163	2,400
Totals					1,159 hr	17,062

^a\$14.72/hour (average hourly wage).

There are no direct respondent costs for this data collection.

No Annual Record Keeping Burden

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of

information technology, e.g., permitting electronic submission of responses.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated May 18, 2001 (66 FR 27647).

Draft EISs

ERP No. D-FHW-G40168-LA Rating EC2, Bayou Barataria Bridge/LA-302 Replacement, LA-45/Jean Lafitte Boulevard to LA-3257/Privateer Boulevard, Funding and U.S. Army COE Section 404 and U.S. Coast Guard Bridge Permits Issuance, Communities

of Jean Lafitte and Barataria, Jefferson Parish, LA.

Summary: EPA has environmental concerns and requests additional information in the final EIS. Areas of concern include: consideration of additional alternatives, more balance in the assessment of the nature and extent of likely environmental impacts, correction of apparent inconsistencies or contradictions, and additional clarifications in the impact analysis.

ERP No. D-FHW-K40249-CA Rating EC2, Lincoln Bypass Construction, South of Industrial Boulevard to North of Riosa Road, Funding and U.S. Army COE Section 404 Permit Issuance, Placer County, CA.

Summary: EPA expressed environmental concerns about the 30.2 acres of wetland impacts from the Park and Ride facility, that cumulative and indirect impacts are not thoroughly analyzed in the DEIS, and the "AAC2" alignment should not be ruled out as the preferred alternative.

ERP No. D-FRC-F05123-00 Rating LO, Bond Falls Project, Issuing a New License for Existing Hydroelectric License, (FERC No. 1864-005) Ontonagon River Basin, Ontonagon and Gogebic Counties, MI and Vilas County, WI.

Summary: EPA had no objections to the proposed project.

ERP No. D-FRC-L03011-WA Rating EO2, Georgia Strait Crossing Pipeline (LP) Project, Construction and Operation, To Transport Natural Gas from the Canadian Border near Sumas, WA to U.S./Canada Border at Boundary Pass in the Strait of Georgia, Docket Nos. CP01-176-000 and CP01-179-000, Whatcom and San Juan Counties, WA.

Summary: EPA expressed environmental objections to the proposed project due to a lack of detailed evaluation of alternatives, lack of evaluation of the entire project, the lack of analysis at the ecosystem scale and the lack of integration with the evaluation and decisionmaking processes being conducted in Canada for the Canadian portion of the proposed project. EPA recommended that these issues, along with others, be addressed in the final EIS.

ERP No. DA-COE-E34030-FL Rating EC2, Central and Southern Florida Project, Water Preserve Areas (WPA) Feasibility Study, To Provide a Mechanism for Increased Aquifer Recharge and Surface and Subsurface Water Storage Capacity, Comprehensive Everglades Restoration Plan, Broward and Miami-Dade Counties, FL.

Summary: EPA expressed environmental concerns and requested that additional water quality and other
