SUPPLEMENTARY INFORMATION: The Maritime Administration (MARAD) is clarifying its approval process in 46 CFR Part 221 for requests relating to proposed transfers to foreign registry of U.S. documented vessels over 1000 gross tons. The approval process will require vessel owners to self-certify that the vessel(s) does not contain polychlorinated biphenyls (PCBs) in regulated quantities, and to provide notice to the Environmental Protection Agency (EPA) of the transfer request. This process shall apply to all transfer requests filed on or after February 14, 2011, except as otherwise provided herein. In addition, the requirement for vessel owner self-certification will apply to all future approvals under the provisions for granting advance foreign transfer approvals pursuant to 46 U.S.C. 56101(b), regardless of when the application is filed. Vessel owners that receive advance approval under 46 U.S.C. 56101(b) will be required to submit a self-certification conforming to the language provided below, or as may be amended by MARAD, prior to transfer of the vessel to foreign registry, otherwise the prior approval is void. Vessels built in the United States after 1985 shall be exempted from these requirements.

Self-certification must be performed by a person with legal authority to act on behalf of the company. Self-certification means a written statement containing the following language: “Under civil and criminal penalties of law for the making or submission of false or fraudulent statements or representations (18 U.S.C. 1001 and 15

U.S.C. 2615), to the best of my knowledge and belief, I hereby certify that after the exercise of reasonable due diligence, the vessel(s) do(es) not contain polychlorinated biphenyls (PCBs) in amounts greater than or equal to 50 ppm as regulated by the Toxic Substances Control Act (15 U.S.C. 2601 *et seq.*).” The Maritime Administration will provide the EPA with up to 30 days notice prior to approving any transfer request. Applicants are advised to account for this processing time when submitting transfer requests.

Dated: June 20, 2011.

By Order of the Maritime Administrator.

Murray A. Bloom,

Acting Secretary, Maritime Administration.

Rural Health Care Support Mechanism

AGENCY: Federal Communications Commission.

ACTION: Interim rule.

SUMMARY: In this document, the Federal Communications Commission (Commission) adopts an interim rule permitting health care providers that are located in a “rural area” under the definition used by the Commission prior to July 1, 2005, and that have received a funding commitment from the rural health care program prior to July 1, 2005, to continue to be treated as if they are located in “rural” areas for purposes of determining eligibility for all universal service rural health care programs. The Commission takes these actions to ensure that health care providers located in rural areas can continue to benefit from connecting with grandfathered providers, and thereby provide health care to patients in rural areas.

DATES: Effective June 27, 2011.
