through surveys of child care licensing
administrators, front-line child care
licensing staff, and child care providers.**DATES:** *Comments due within 30 days of

proposing a new information collection
to deepen the field’s understanding of
the CCEE licensing system. Information
will be collected from child care
licensing administrators, front-line child
care licensing staff, and child care
providers. This information collection
will include three national surveys:1. A one-time nationwide survey of
the child care licensing administrator in
each state, territory, and the District of
Columbia (N=56) regarding the licensing
system, as well as administrators’
characteristics, experiences, and
perceptions of the licensing system.
Child care licensing administrators
oversee critical systems that regulate
CCEE settings for young children.2. A one-time nationwide survey of
front-line child care licensing staff from
each of the 50 states and the District of
Columbia about their characteristics,
experiences, responsibilities, and
perceptions of the CCEE licensing
system. By front-line child care
licensing staff we mean individuals who
routinely conduct licensing inspections
of child care programs. They may have
other responsibilities as well, as long as
one of their jobs is to routinely conduct
inspections.3. A one-time nationwide survey of
licensed child care providers from each
of the 50 states and the District of
Columbia about their perceptions of and
experiences with the CCEE licensing
system. For the purposes of this study,
licensed providers are defined as
program owners/directors who oversee
the day-to-day operations in a licensed
center, as well as owners/operators of
licensed family child care (FCC)
programs (including group and family
child care homes).*Respondents:* We will invite all child
care licensing administrators in each
state/territory and the District of
Columbia, and all front-line child care
licensing staff in each state and the
District of Columbia to participate in a
comprehensive one-time web-based or
telephone survey. For the survey of
providers, the goal for the final sample
will be a nationally representative
sample of 2,000 licensed providers from
all 50 states and the District of Columbia
(1000 randomly selected licensed child
care centers and 1000 randomly selected
family child care homes).**ANNUAL BURDEN ESTIMATES**
