SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Youthful Offender Grants Management Information System information collection. This data collection request is to permit the Department of Labor to continue a management information system for these various sets of grantees. This request continues the reporting and recordkeeping system for a minimum level of information collection that is necessary to comply with Equal Opportunity requirements, to hold Youthful Offender grantees appropriately accountable for the Federal funds they receive, including performance measures, and to allow the Department to fulfill its oversight and management responsibilities. Workforce Innovation and Opportunity Act (WIOA) Section 185(d)(2) authorizes this information collection. *See* 29 U.S.C. 3245, 3248.

This information collection is subject to the PRA. A Federal agency generally

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on January 31, 2020. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on September 5, 2019 (84 FR 46761).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Hazardous Waste Operations and Emergency Response (HAZWOPER) Standard information collection. The Hazardous Waste Operations and Emergency Response Standard specifies a number of information collection requirements. Employers can use the information collected under the HAZWOPER rule to develop the various programs the Standard requires and to ensure that their workers are trained properly about the safety and health hazards associated with hazardous waste operations and emergency response to hazardous waste releases. OSHA will use the records developed in response to this Standard to determine adequate compliance with the Standard’s safety and health provisions. The employer’s failure to collect and distribute the information required in this standard will affect significantly OSHA’s effort to control and reduce injuries and fatalities. Such failure would also be contrary to the direction Congress provided in Superfund Amendments and Reauthorization Act (SARA).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of

information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218–0202.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on January 31, 2020. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review.
