SUPPLEMENTARY INFORMATION:

I. Background: The American Recovery and Reinvestment Act of 2009 (The Recovery Act) was signed into law by President Obama on February 17, 2009. Among other funding directed to the Department of Labor, the Recovery Act provides \$750 million for a program of competitive grants for worker training and placement in high growth and emerging industries, the American Recovery and Reinvestment Act (ARRA) High Growth and Emerging Industries (HGEI) grants. It is critical to record the impact of these Recovery Act resources, current information on participants in these grants, and the services provided to them. Therefore, to obtain comprehensive information on participants served by and services provided with Recovery Act resources, ETA proposes an extension with revisions of an information collection set for ARRA HGEI grantees.

II. Review Focus:

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

BILLING CODE P

DEPARTMENT OF LABOR

Employment and Training Administration

Notice of Availability of Funds and Solicitation for Grant Applications (SGA) to Fund Demonstration Projects

AGENCY: Employment and Training Administration, U.S. Department of Labor.

Announcement Type: New, Notice of Solicitation for Grant Applications (SGA).

Funding Opportunity Number: SGA/DFA PY 09-10.

Catalog of Federal Assistance Number: 17.261.

SUMMARY: The U.S. Department of Labor (DOL), Employment and Training Administration (ETA), announces the availability of \$12.2 million from funds made available through the FY 2010 DOL budget for Training and Employment Services for grants to State Workforce Agencies (SWA) to develop the Workforce Data Quality Initiative (WDQI). Grants awarded will provide SWAs the opportunity to develop and use State workforce longitudinal administrative data systems. These State longitudinal data systems will, at a minimum, include information on programs that provide training, employment services, and unemployment insurance and will be linked longitudinally at the individual level to allow for analysis which will lead to enhanced opportunity for program evaluation and lead to better information for customers and

stakeholders of the workforce system. Where such longitudinal systems do not exist or are incipient, WDQI grant assistance may be used to design and develop workforce data systems that are longitudinal and which are designed to link with relevant education data or longitudinal education data systems. WDQI grant assistance may also be used to improve upon and more effectively use existing State longitudinal systems.

This solicitation provides background information on workforce longitudinal database systems, describes the application submission requirements, outlines the process that eligible entities must use to apply for funds covered by this solicitation, and details how grantees will be selected.

DATES: Key Dates: The closing date for receipt of applications under this announcement is August 16, 2010. Applications must be received at the address below no later than 4 p.m. (Eastern Time). Application and submission information is explained in detail in Section IV of this SGA. A pre-recorded Webinar for prospective applicants will be online at: <http://www.workforce3one.org> and available for viewing on June 21, 2010, by 3 p.m. ET, and accessible any time after that date. Reviewing this Webinar is not mandatory but applicants are encouraged to take advantage of this resource to get questions answered.

ADDRESSES: Mailed applications must be addressed to the U.S. Department of Labor, Employment and Training Administration, Division of Federal Assistance, Attention: Willie E. Harris, Grant Officer, Reference SGA/DFA PY 09-10, 200 Constitution Avenue, NW., Room N4716, Washington, DC 20210. Applications sent via facsimile (fax), telegram or e-mail will not be accepted. Information about applying online also can be found in Section IV.C of this document. Applicants are advised that mail delivery in the Washington, DC area may be delayed due to mail decontamination procedures. Hand-delivered proposals will be received at the above address.

SUPPLEMENTARY INFORMATION:

A. Grant Purpose

The WDQI will provide funding to selected SWAs to accomplish a combination of the following objectives:

i. Develop or improve State workforce longitudinal data systems. Workforce data are already reported by localities, States, and nationally so grantees will not be creating entirely new data collection systems. What will be new, however, is coordinating, or expanding/strengthening the coordination of these

workforce data sources so individual-level records can be matched to one another across programs and over time.

ii. Enable workforce data to be matched with education data, to ultimately create longitudinal data systems with individual-level information from pre-kindergarten (pre-K) through post-secondary and into the workforce system to build capacity to measure outcomes while protecting individual privacy. For many years DOL has supported efforts to create workforce longitudinal administrative databases linked to data from other programs, including education data. The WDQI will greatly extend and expand this effort and complement the Statewide Longitudinal Data Systems (SLDS) grant program administered by the Department of Education (ED).

iii. Improve the quality and breadth of the data in workforce longitudinal data systems. It is important that data in the longitudinal systems are complete and accurate and include an array of performance information in order to enhance knowledge about the workforce system and the impact of State workforce development programs. Data collection systems might also be improved to strengthen data validity and to minimize the reporting burden on State agencies and training providers.

iv. Use longitudinal data to provide useful information about program operations and analyze the performance of education and training programs. Policymakers and practitioners can use this data analysis to make programmatic adjustments that improve the workforce system.

v. Provide user-friendly information to consumers to help them select the education and training programs that best suit their needs. For example, Washington State displays information about training program outcomes at <http://www.careerbridge.wa.gov>, allowing consumers to compare the performance of different training providers.

The relative prominence of each objective for a given State will primarily be determined by the State's "launch-point" for developing a workforce longitudinal data system that will ultimately be linkable to education data and will reflect high data quality standards while protecting individual privacy (see the Section I.A.5). Additional details on the "launch point" for States can be found in the section of this SGA in Section I.A.1.
