DEPARTMENT OF EDUCATION

34 CFR Chapters I-VI

[Docket ID ED-2013-OII-0110]

RIN 1894-AA05

Final Priority—Promise Zones

AGENCY: Department of Education.

ACTION: Final priority.

SUMMARY: The Secretary of Education (Secretary) announces a priority that the Department of Education (Department) may use for any appropriate discretionary grant program in fiscal year (FY) 2014 and future years. Through this action, we intend to focus Federal financial assistance on expanding the number of Department programs and projects that support activities in designated Promise Zones.

This action will permit all offices in the Department to use this priority, as appropriate, in any discretionary grant competition.

DATES: This priority is effective April 28, 2014.

FOR FURTHER INFORMATION CONTACT: Jane Hodgdon. Telephone: 202-453-6620. Or by email: Jane.Hodgdon@ed.gov.

If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), call the Federal Relay Service (FRS), toll free, at 1-800-877-8339.

SUPPLEMENTARY INFORMATION:

Program Authority: 20 U.S.C. 1221e-3, 3474.

We published a proposed priority (NPP) in the **Federal Register** on October 25, 2013 (78 FR 63913). That notice contained background information and our reasons for proposing the priority. There are no differences between the NPP and this notice of final priority.

Public Comment: In response to our invitation in the NPP, 10 parties submitted comments on the proposed priority. Generally, we do not address technical and other minor changes. In addition, we do not address general comments that raised concerns not directly related to the proposed priority.

Analysis of Comments and Changes: An analysis of the comments follows.

Comment: Several commenters addressed the Promise Zones Initiative as described in the Background Section of the NPP. Many expressed support for the Promise Zones Initiative, its potential to impact community residents, and the inclusion of a focus on education in the designated Promise Zones. Other commenters expressed concerns about the small number of

Promise Zones designations to be made, about the funding and resources that would be made available to Promise Zones designees, about how the progress of the Promise Zones Initiative would be evaluated, and whether the 10-year timeframe of the designation would be sufficient to realize long-term impacts. Additionally, one commenter requested clarification on the role that Federal staff would play in working with Promise Zones designees, and two commenters suggested that the Promise Zone Initiative should expand resident access to housing opportunities in higher income communities.

Discussion: We appreciate the feedback and suggestions on the Promise Zones Initiative. The Department coordinates with the U.S. Departments of Housing and Urban Development, Agriculture, and Justice to support the administration of the Promise Zones Initiative. As such, we will share the comments regarding the broader initiative with our Federal Promise Zones partners for consideration in the development and implementation of any Promise Zones opportunity. However, because the comments about the broader initiative do not provide specific recommendations for the Department's proposed priority, we are not providing a direct response to each topic raised in these comments.

Changes: None.

Comment: Two commenters stated their support for the Promise Zones priority and the important role that education can play in revitalizing a community. While supportive of the purpose of Promise Zones, one commenter expressed concern about including a priority for a potential pool of 20 Promise Zone designees. The commenter further stated that because the scope of the Promise Zones Initiative is small, it does not make sense to prioritize those few communities.

Discussion: We appreciate the commenters' support for the President's efforts to combat poverty, and we agree that education is critical to building ladders of opportunity to the middle class. While the ultimate number of Promise Zones communities is relatively small, the number of discretionary grants that might support Promise Zones is not so limited. The priority can be used with any appropriate discretionary grant competition, and all eligible entities that are planning to serve and coordinate with a Promise Zone, such as local educational agencies and non-profit organizations, may respond to this priority. The purpose of the
