[Project No. 2088–068]

South Feather Water and Power Agency; Notice of Availability of the Draft Supplemental Environmental Impact Statement for the South Feather Power Project

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a new license for the existing South Feather Power Project (FERC No. 2088) and has prepared a draft supplemental environmental impact statement (SEIS) for the project. The project is located on the South Fork Feather River, Lost Creek, and Slate Creek in Butte, Yuba, and Plumas Counties, California and occupies 1,977.12 acres of federal land administered by Plumas National Forest and 10.57 acres of federal land administered by the U.S. Bureau of Land Management. The project is a water supply and power generating project consisting of four hydroelectric developments: Sly Creek, Woodleaf, Forbestown, and Kelly Ridge, which combined provide 117.3-megawatts of power generating capacity and an average of 498,972 megawatt-hours of electricity annually.

On June 4, 2009, Commission staff issued a final environmental impact statement (EIS) on the proposed relicensing of the South Feather Power Project. On October 23, 2012, South Feather Water and Power Agency entered into a Settlement Agreement with the Department of Water Resources of the State of California and the State Water Contractors, Incorporated. On November 30, 2018, the California State Water Resources Control Board issued a

water quality certificate for the project. Additionally, on October 14, 2022, the U.S. Department of Agriculture, Forest Service filed revised final 4(e) conditions. The draft SEIS describes staff's analysis of the applicant's proposal and the alternatives for relicensing the project, including our analyses of the terms and conditions included in the filings made subsequent to the issuance of the final EIS as well as the potential effects on species newly listed or updated under the Endangered Species Act. The draft SEIS documents the views of governmental agencies, non-governmental organizations, affected Indian tribes, the public, the license applicant, and Commission staff.

The Commission provides all interested persons with an opportunity to view and/or print the draft SEIS via the internet through the Commission's Home Page (<http://www.ferc.gov/>), using the "eLibrary" link.
