

insufficient to offset the added air pollution from the facility.

While the EAB rejected B.C.'s petition based, in part, on B.C.'s failure to properly preserve the majority of these issues for appeal, the EAB also noted that EFSEC had in fact considered and addressed many of B.C.'s concerns. Thus, for example, the EAB concluded that EFSEC had considered those comments that were properly submitted related to startup and shutdown operations and made a number of changes to the draft permit to make it more protective based on these comments. In addition, the EAB found that EFSEC had collected and considered data on ambient air quality, including consideration of Canadian standards, and that B.C. failed to show that EFSEC's determination that air quality concentrations would not exceed standards established to protect human health and the environment was clearly erroneous. The EAB also noted that based on its review of the record before it, it did not appear that the offsets offered by SE2 were intended to meet any requirement within the purview of the federal PSD program. Accordingly, the EAB found that the sufficiency of the offsets were beyond the scope of EAB review.

The Board remanded the PSD permit to EPA and EFSEC, however, to correct a typographical error in the final permit which was inadvertently retained from the draft permit. In a previous permit application, SE2 requested the ability to burn natural gas and fuel oil. The use of fuel oil was rejected by EFSEC through the state's separate site certification process for reasons unrelated to PSD. Although SE2 later agreed to burn only natural gas as evidenced in a revised PSD permit application, the draft PSD permit failed to reflect SE2's concession. The final permit continued to erroneously make references to burning "either fuel." Consistent with the EAB's order, EPA and EFSEC eliminated all references to the use of the phrase "either fuel" in the final permit through an administrative amendment. EPA and EFSEC reissued the final permit on April 17, 2003.

Pursuant to 40 CFR 124.19(f)(1)(iii), when the EAB orders remand proceedings, for purposes of judicial review, final Agency action occurs upon the completion of remand proceedings. This notice is being published pursuant to 40 CFR 124.19(f)(2), which requires notice of any final agency action regarding a permit to be published in the **Federal Register**. This notice being published today in the **Federal Register** constitutes notice of the final Agency action as remand proceedings are

complete. If available, judicial review of these determinations under Section 307(b)(1) of the CAA may be sought only by the filing of a petition for review in the United States Court of Appeals for the Ninth Circuit, within 60 days from the date on which this notice is published in the **Federal Register**. Under Section 307(b)(2) of the Act, this determination shall not be subject to later judicial review in any civil or criminal proceedings for enforcement.

Dated: April 23, 2003.

[Program Announcement 03056]

#### Development and Testing of New Medications for Treatment of Emerging Infectious Diseases; Notice of Availability of Funds

*Application Deadline:* June 15, 2003.

##### A. Authority and Catalog of Federal Domestic Assistance Number

This program is authorized under section 301(a) and 317(k)(2) of the Public Health Service Act, (42 U.S.C. section 241(a) and 247(k)(2)), as amended. The Catalog of Federal Domestic Assistance number is 93.283.

##### B. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2003 funds for a cooperative agreement program for Development and Testing of New Medications for Treatment of Emerging Infectious Diseases. This program addresses the "Healthy People 2010" focus area(s) Immunization and Infectious Diseases.

The purpose of the program is to develop and test new anti-infectious agents developed from natural products primarily for use in humans. Of particular, but not exclusive interest are anti-infective agents for parasitic diseases. Projects may include, but are not limited to a range of activities such as identifying promising agents, purifying or creating them, optimizing them for clinical use, and testing them.

Measurable outcomes of the program will be in alignment with the following performance goal for the National Center for Infectious Diseases (NCID): Protect Americans from infectious diseases.

##### C. Eligible Applicants

Applications may be submitted by public and private nonprofit organizations and by governments and their agencies, that is:

- Universities
- Colleges
- Technical schools
- Research Institutions
- Hospitals
