

Ownership and License Agreement<sup>27</sup> and an Indemnification and Insurance Matters Agreement. The Indemnification and Insurance Matters Agreement provides for a separation of insurance coverage and for mutual indemnification for claims based upon fault.<sup>28</sup>

The Transitional Services Agreement provides for the continuation on an incidental basis of certain services currently provided to Southern Energy, including financial, human resources administration and payroll, accounting and treasury, engineering and technical consulting, information technology, procurement, government relations and legal services, for a term not to exceed two years from September 1, 2000. As a result of the incidental nature of the services, neither Southern nor its subsidiaries will incur unreimbursed costs. After the Separation Date, the subsidiaries of Southern intend to restrict the services rendered to the Southern Energy group to the services enumerated in the Transitional Services Agreement, which are a subset of the currently authorized services.<sup>29</sup>

Southern further requests that the Commission take action, if deemed appropriate and consistent with the Act under section 12(f) of the Act<sup>30</sup> with respect to the Master Agreement and the Ancillary Agreements, taking into account that Southern Energy will in all probability cease to be an associate company of Southern in 2001. Southern proposes that the authority to provide the ancillary services shall expire in

accordance with the terms of the Master Agreement on or before September 1, 2002.<sup>31</sup> Southern proposes to provide ancillary services on a wholly incidental basis and only as required to permit an orderly separation of the businesses without extraordinary losses or transition costs.

#### V. Reporting Requirements

The Applicants propose that a single consolidated quarterly report be filed by Southern and in accordance with rule 24 with respect to all activities of Southern and its subsidiaries authorized in this file. This report would replace the combined report currently being filed pursuant to the 1996 Order.

For the Commission, by the Division of Investment Management, under delegated authority.

#### Public Meeting on An International Agreement on Prior Informed Consent for Certain Hazardous Chemicals and Pesticides

**SUMMARY:** This public meeting will provide an overview of ongoing efforts to implement a binding agreement on the application of a prior informed consent (PIC) procedure for certain hazardous chemicals and pesticides. A total of 73 countries have signed the binding PIC agreement, with 11 countries completing ratification. The purpose of the public meeting is to discuss preparations for the seventh session of the PIC intergovernmental negotiating committee (INC-7) which will take place from October 30 to November 3, 2000. The INC-7 meeting will address a number of timely issues

<sup>27</sup> The Technology and Intellectual Property Ownership and License Agreement documents the intellectual property that Southern and Southern Energy are each authorized to use and does not require any future transfers of intellectual property following the Separation Date.

<sup>28</sup> Applicants assert that a claims indemnification agreement of this nature incidental to a genuine transaction does not involve an upstream or any extension of credit and is not an "indemnity" within the meaning of section 12 of the Act. See Mississippi Valley Generating Company, HCAR No. 12794 (February 9, 1955) and The Southern Company, HCAR No. 27134 (February 9, 2000) (both construing and applying Section 12(a) of the Act in accordance with Section 1(c) of the Act and the legislative history showing an intent to protect public utility subsidiaries).

<sup>29</sup> Southern's subsidiaries are authorized under rule 87 of the Act to provide goods and services at cost to Southern Energy and its subsidiaries in accordance with the limitations imposed by rule 87. Southern Company Services, Inc. ("Southern Services") is further authorized under the 1996 Order and HCAR No. 26212 (December 30, 1994) to provide services at cost to SERI. Southern Energy represents less than 3% of the total service billings of Southern Services. Southern anticipates a substantial reduction in the services rendered to Southern Energy following the Separation Date and a further reduction following the Distribution.

<sup>30</sup> Section 12(f) of the Act confers plenary jurisdiction upon the Commission over affiliate transactions.

related to the PIC agreement: status and implementation issues related to the interim PIC procedure, applicability to pesticides containing contaminants, activities of the interim chemical review committee, and preparation for the first conference of the parties. The public meeting will take place from 10:00 am to 12:00 pm on October 25 in Room 3519, U.S. Department of State, 2201 C Street Northwest, Washington, D.C. Attendees should use the entrance at C Street, and should provide Eunice Mourning (202-647-9266) with their date of birth and social security number by noon on October 24. Attendees should bring picture identification to the meeting.

**FOR FURTHER INFORMATION CONTACT:**

Please contact Dr. Marie Ricciardone, U.S. Department of State, OES/ENV, Room 4325, 2201 C Street NW, Washington D.C. 20520. Phone 202-736-4660, fax 202-647-5947.

**SUPPLEMENTARY INFORMATION:** The United States, through an interagency working group chaired by the State Department, has been involved in preparations for implementation of the Rotterdam Convention on the Prior Informed Consent (PIC) Procedure for Certain Hazardous Chemicals and Pesticides in International Trade. The text of the PIC Convention was adopted by the Conference of Plenipotentiaries in September 1998. The Convention will make binding the current interim voluntary scheme contained in the United Nations Food and Agriculture Organization (FAO) International Code of Conduct on the Distribution and Use of Pesticides and the United Nations Environment Program (UNEP) London Guidelines for the Exchange of Information on Chemicals in International Trade. The PIC procedure was developed in recognition of the fact that many countries in the developing world have inadequate capacity to generate information necessary to make decisions regarding how to effectively manage risks of hazardous chemicals, and in certain cases to ensure adequate compliance with risk management decisions. The procedure assists countries in learning more about the characteristics of certain hazardous chemicals that may be shipped to them, initiates a decision-making process on the future import of these chemicals, and facilitates the dissemination of this decision to other countries.

Chemicals eligible for the PIC procedure include those which have been banned or severely restricted by participating countries, as well as certain acutely hazardous pesticides. Under the procedure, countries notify

the PIC secretariat of their decision on importation for each of the PIC chemicals. In their decision, countries indicate whether they will permit use and importation, prohibit use and importation, or permit importation only under specified conditions. Importing countries are expected to ensure that their decisions are applied to all sources of import and to domestic production for domestic use; exporting countries are expected to ensure that exports do not occur contrary to the decisions of importing countries. So far, 27 chemicals have been included in the procedure, and it is likely that more will be covered in the future. Additional information on the voluntary procedure, PIC text, PIC chemicals, and the agenda for INC-7 is located on the internet on the PIC Home Page (<http://www.pic.int>).

The Department of State is issuing this notice to help ensure that potentially affected parties are aware of and knowledgeable about the parameters of these negotiations. In the future, we will be contacting interested organizations about planned briefings by mail or fax. Those organizations which cannot attend the meeting, but wish to remain informed, should provide Dr. Marie Ricciardone of the Department of State with their address, telephone and fax numbers.
