A formal agenda will be available at the meeting.

SUPPLEMENTARY INFORMATION: NACEPT is a federal advisory committee under the Federal Advisory Committee Act, Public Law 92–463. NACEPT provides advice and recommendations to the EPA Administrator and other EPA officials on a broad range of domestic and international environmental policy issues.

NACEPT consists of a representative cross-section of EPA's partners and principal constituents who provide advice and recommendations on policy issues and serve as a sounding board for new strategies. Over the last two years, EPA has undertaken a number of actions to improve our compliance assistance activities. To ensure that the Agency efforts to improve compliance assistance are implemented in a way that continues to reflect stakeholder needs, NACEPT created a new Standing Committee on Compliance Assistance. This will provide a continuing Federal Advisory Committee forum from which the EPA can continue to receive valuable stakeholder advice and recommendations on compliance assistance activities. For further information concerning the NACEPT Standing Committee on Compliance Assistance, including the upcoming meeting, contact Joanne Berman, Designated Federal Officer (DFO), on (202) 564–7064, or E-mail: berman.joanne@epa.gov.

Inspection of Subcommittee Documents: Documents relating to the above topics will be publicly available at the meeting.

II. Background

In 1996, through enactment of the Food Quality Protection Act, which amended the Federal Food, Drug, and Cosmetic Act, Congress directed EPA to develop a screening program to determine whether certain substances may have hormonal effects in humans. EPA formed a scientific advisory committee, the Endocrine Disruptor Screening and Testing Advisory Committee (EDSTAC), under FACA to advise it on establishing a program to carry out the Congressional directive. EDSTAC recommended a multi-step approach including a series of screens (Tier I Screens), and tests (Tier II Tests), because there were no validated test systems for determining whether a

chemical may be an endocrine disruptor. To ensure that EPA has the best and most up-to-date advice available regarding the validation of the screens and tests for the EDSP, EPA recently created the Endocrine Disruptor Methods Validation Subcommittee (EDMVS) of the National Advisory Council for Environmental Policy and Technology (NACEPT). EDMVS, a group of subject-matter experts, provides independent advice and counsel to the Agency through NACEPT, on scientific and technical issues related to validation of the EDSP Tier I screens and Tier II tests, including advice on methods for reducing animal use, refining procedures involving animals to make them less stressful, and replacing animals where scientifically appropriate.
