

than five days after the time limit for filing case briefs. Parties who submit arguments are requested to submit with each argument: (1) A statement of the issue, (2) a brief summary of the argument and (3) a table of authorities. Further, we request that parties submitting written comments provide the Department with a diskette containing an electronic copy of the public version of such comments. Unless the deadline for issuing the final results of review is extended, the Department will issue the final results of this administrative review, including the results of its analysis of issues raised in the written comments, within 120 days of publication of the preliminary results in the **Federal Register**.

#### Assessment Rates

Upon completion of this administrative review, the Department shall determine, and CBP shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR § 351.212(b)(1), we calculated an importer-specific assessment rate for Essar's subject merchandise. If the importer-specific assessment rate is above de minimis, we will instruct CBP to assess the importer-specific rate uniformly on all entries made during the POR. The Department will issue appropriate assessment instructions directly to the CBP within 15 days of publication of the final results of review. If these preliminary results are adopted in the final results of review, we will direct CBP to assess the resulting assessment rate against the actual entered customs values for the subject merchandise on the importer entries during the review period.

#### Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(1) of the Act: (1) The cash deposit rate for Essar will be the rate established in the final results of this review, except if the rate is less than 0.5 percent, and therefore de minimis, the cash deposit will be zero; (2) for previously investigated or reviewed companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the less than fair value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most

recent period for the manufacturer of the subject merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be the "all others" rate of 38.72 percent, which is the "all others" rate established in the LTFV investigation. *See Amended Final Determination*. These cash deposit rates, when imposed, shall remain in effect until publication of the final results of the next administrative review.

#### Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR § 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: December 27, 2006.

(A-122-838)

#### Certain Softwood Lumber Products from Canada: Extension of the Time Limit for the Preliminary Results of Antidumping Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** January 12, 2006.

**FOR FURTHER INFORMATION CONTACT:** Constance Handley or David Layton, at (202) 482-0631 or (202) 482-0371, respectively; AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW., Washington, DC 20230.

#### SUPPLEMENTARY INFORMATION:

##### Background

On June 30, 2005, the Department of Commerce (the Department) published a

notice of initiation of administrative review of the antidumping duty order on certain softwood lumber products from Canada, covering the period May 1, 2004, through April 30, 2005. *See Notice of Initiation of Antidumping Duty Administrative Review*, 70 FR 37749. The preliminary results are currently due no later than January 31, 2006. The review covers over four hundred producers/exporters of subject merchandise to the United States, of which eight are being individually examined.

#### Extension of Time Limit for Preliminary Results of Review

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department of Commerce (the Department) to complete the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order/finding for which a review is requested. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary results to a maximum of 365 days after the last day of the anniversary month of an order/finding for which a review is requested.

We determine that it is not practicable to complete the preliminary results of this review within the original time limit due to a number of complex issues which must be addressed prior to the issuance of those results. For the first time in this proceeding, the Department employed a sampling methodology in selecting respondents. In order to obtain necessary information and to afford parties opportunities to comment on the Department's selection methodology, the Department did not conduct its respondent selection sampling procedure until November 23, 2005. See section 777A(b) of the Act (where the Department determines to limit the selection of respondents by sampling, the Department "shall, to the greatest extent possible, consult with the exporters and producers regarding the method used to select exporters, producers or types of products"). Consequently, the Department requires additional time to analyze the parties' questionnaire responses, including the complex corporate structures and affiliations of the eight respondents in this review, issue any necessary supplemental questionnaires and conduct verifications.

Accordingly, the Department is extending the time limit for completion of the preliminary results of this administrative review until no later than

May 31, 2006. We intend to issue the final results no later than 120 days after publication of the preliminary results notice.

This notice of extension of the time limit is published in accordance with 751(a)(3)(A) of the Act.

Dated: January 5, 2006.

#### Tufts University, Notice of Decision on Application, for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

**Docket Number:** 05-044. Applicant: Tufts University, Somerville, MA. Instrument: Low Temperature Scanning Tunneling Microscope. Manufacturer: Omicron Nanotechnology, Germany. Intended Use: See notice at 70 FR 61603, October 25, 2005.

**Comments:** None received. Decision: Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. Reasons: The foreign instrument provides: stable imaging at temperatures down to 4 Kelvin with low thermal drift rates (<1 angstrom per hour) and low rms vibration amplitudes (< 0.005 angstrom in a 300 Hz bandwidth). It also has the capability of depositing molecules on the sample in the microscope stage at temperatures down to 4 Kelvin and tip retraction and return to the same area after deposition of molecules. Advice received from: A university research laboratory for advanced microstructures and devices (comparable case). It knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value

to the foreign instrument which is being manufactured in the United States.

#### Applications for Duty-Free Entry of Scientific Instruments

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

**Docket Number:** 05-061. Applicant: University of Michigan, 2355 Bonisteel Boulevard, Ann Arbor, MI 48109-2104. Instrument: Application Specific Integrated Circuit. Manufacturer: Ideas ASA, Norway. Intended Use: The instrument is intended to be used as a compatible accessory for a unique 3-dimensional position sensitive CdZnTe semiconductor gamma-ray spectrometer. The article consists of a multi-channel charge sensing amplifier with very low noise of about 300 electrons rms for which three iterations have been developed in collaboration with Ideas ASA. The systems can get energy and 3D position information for not only single-interaction events, but for multiple-interaction events by using electron drift times. Excellent energy resolution for both single-interaction events (0.8% FWHM at 662 keV) and multiple-interaction events (1.3% FWHM at 662 keV) has been achieved. A new scalable detector array system with plug-in electronics is required for further development of the spectrometer. Application accepted by Commissioner of Customs: December 27, 2005.

**Docket Number:** 05-062. Applicant: University of Texas Medical Branch at

Galveston, 301 University Boulevard, Galveston, TX 77555. Instrument: Electron Microscope, Model JEM-2200FS. Manufacturer: JEOL, Ltd., Japan. Intended Use: The instrument is intended to be used to examine and study:

- (1) Biological macromolecules, cellular organelles and viruses
- (2) Three dimensional structure
- (3) Electron Microscope imaging at cryogenic temperatures
- (4) Structure-functional relationship to pathologic potential
- (5) Low electron radiation dose imaging of frozen-hydrated viruses to preserve structure.

Application accepted by Commissioner of Customs: December 27, 2005.

#### Notice Requesting Comments on Intellectual Property Protection at Trade Events

**Authority:** 15 U.S.C. 4721, 4724; 22 U.S.C. 2452(a)(3); Pub. L. 86-14 (73 Stat. 18); Pub. L. 91-269 (84 Stat. 272).

**AGENCY:** International Trade Administration, Department of Commerce.

**ACTION:** Notice requesting comments on intellectual property protection at trade events.

**SUMMARY:** The U.S. Department of Commerce requests comments from interested parties regarding issues related to Intellectual Property Rights (IPR) protection at trade events, including policies and current practices, and problems of infringement.

**DATES:** Comments should be received within 30 days from the date this notice appears in the **Federal Register**. Comments received after 30 days will be considered to the extent practicable.

**ADDRESSES:** The U.S. Department of Commerce, Room 2118, HCHB, 14th Street and Constitution Avenue, NW., Washington, DC 20230, Attn: Donald Huber; or e-mail to: [dhuber@mail.doc.gov](mailto:dhuber@mail.doc.gov).

**FOR FURTHER INFORMATION CONTACT:** Donald Huber at Tel: 202-482-2525; e-mail: [dhuber@mail.doc.gov](mailto:dhuber@mail.doc.gov).
