BILLING CODE 4140–01–P

DEPARTMENT OF HOMELAND SECURITY

[Docket No. ICEB–2022–0016]

RIN 1653–ZA36

Update to the Department of Homeland Security STEM Designated Degree Program List

AGENCY: U.S. Immigration and Customs Enforcement (ICE), Department of Homeland Security (DHS).

SUMMARY: This notice announces that the Secretary of Homeland Security (Secretary) is amending the DHS STEM Designated Degree Program List by adding eight qualifying fields of study and a corresponding Department of Education Classification of Instructional Programs (CIP) code for each. No CIP codes from the existing list are being removed. The list is used to determine whether a degree obtained by certain F–1 nonimmigrant students following the completion of a program of study qualifies as a science, technology, engineering, or mathematics (STEM) degree as determined by DHS, as required for the F–1 student to be eligible to apply for a 24-month extension of their post-completion optional practical training (OPT).

DATES: DHS adopts the list announced in this notice as of July 12, 2023.

FOR FURTHER INFORMATION CONTACT:

Sharon Snyder, Unit Chief, Policy and Response Center Unit, Student and Exchange Visitor Program; U.S. Immigration and Customs Enforcement, 500 12th Street SW, Stop 5600, Washington, DC 20536–5600; email: sevp@ice.dhs.gov, telephone: (703) 603–3400. This is not a toll-free number.

Program information is available at <https://www.ice.gov/sevis/>.

SUPPLEMENTARY INFORMATION:

What action is DHS taking under this notice?

The Department of Homeland Security (DHS) is updating the list of STEM fields of study that fall within the regulatory definition of “STEM field.” The list, known as the DHS STEM Designated Degree Program List (“STEM list”),¹ is used to determine whether a degree obtained by an F–1 nonimmigrant student qualifies as a STEM degree, as required for the F–1 nonimmigrant student to be eligible to apply for a STEM OPT extension. The current format of the STEM list, which consists of four primary CIP code series designated at the two-digit level, and CIP codes in related fields designated at the six-digit level, was established in a final rule issued in 2016.² The STEM list was most recently updated in 2022.³

Why is DHS taking this action?

In 2016, DHS published a final rule providing a 24-month extension of OPT for F–1 nonimmigrant students who majored in a designated STEM field of study. *See* 81 FR 13039 (March 11, 2016) (“Improving and Expanding Training Opportunities for F–1 Nonimmigrant Students With STEM Degrees and Cap-Gap Relief for All Eligible F–1 Students”) (“2016 STEM Rule”). The 2016 STEM Rule stated that DHS will continue to accept for consideration suggested additions or deletions to the STEM list and may publish updates to the STEM list in the **Federal Register**. In 2022, DHS published a **Federal Register** notice announcing the addition of 22 qualifying fields of study to the STEM list. *See* 87 FR 3317 (January 21, 2022) (“Update to the Department of Homeland Security STEM Designated Degree List”). The **Federal Register** notice also included instructions for how interested parties, including members of the public, can nominate CIP codes for potential inclusion on or removal from the STEM list. DHS received from interested parties, including members of the public, a total of 285 nominations, representing 120 unique fields of study, to be added to the STEM list. DHS did not receive any nominations to remove CIP codes currently on the list. DHS is now announcing that a number of the fields

of study submitted for consideration will be added to the STEM list.⁴ Nominators may resubmit a nomination with additional supporting views and evidence, at any time, if their original submission is not addressed in this notice.

What is OPT and STEM OPT?

OPT is one type of work permission available to certain F–1 nonimmigrant students. It allows eligible F–1 students (except those in English language training programs) to obtain real-world work experience directly related to their major area of study.

The STEM OPT extension is a 24-month extension of OPT available to F–1 nonimmigrant students who have completed 12 months of OPT and received a degree in an approved STEM field of study as designated by the STEM list.

Who may be impacted by this notice?

This notice may impact qualifying F–1 nonimmigrant students who seek a 24-month extension of post-completion OPT.

Where can I find the STEM list?

The STEM list can be found in the docket for this notice and on the Student and Exchange Visitor Program (SEVP) website.⁵

What authority does DHS have to make changes to the STEM list?

The Secretary has broad authority to administer and enforce the Nation’s immigration laws. *See generally* 6 U.S.C. 202; Immigration and Nationality Act of 1952, as amended (INA), sec. 103, 8 U.S.C. 1103. The INA establishes the F–1 nonimmigrant classification for individuals who wish to enter the United States temporarily and solely for the purpose of pursuing a full course of study at an academic institution or accredited language training school certified by the U.S. Immigration and Customs Enforcement’s (ICE) SEVP. *See* INA sec. 101(a)(15)(F)(i), 8 U.S.C. 1101(a)(15)(F)(i). The INA provides the Secretary with broad authority to determine the time and conditions under which nonimmigrants, including F–1 students, may be admitted to the United States. *See* INA sec. 214(a)(1), 8 U.S.C. 1184(a)(1). The Secretary also has broad authority to determine which individuals are authorized for

⁴ While the 2016 STEM Rule provided for “additions or deletions to the list,” no deletions will be made at this time.
