[Project No. 2586-024]

#### Alabama Electric Cooperative, Inc.; Notice of Availability of Environmental Assessment

September 23, 2005.

In accordance with the National Environmental Policy Act of 1969 and part 380 of the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380; FERC Order No. 486 and 52 FR 47,897, the Office of Energy Projects has reviewed the application for a new license for the Conecuh River Project, located on the Conecuh River, in Covington County, Alabama, and has prepared a single environmental assessment (EA) for the project. The project does not use or occupy any Federal facilities or lands.

In the EA, Commission staff analyzes the potential environmental effects of the existing project and concludes that licensing the project, with staff's recommended measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on

the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document.
