SUPPLEMENTARY INFORMATION:

Title: Importation of Female Squash Flowers from Israel into the Continental United States.

OMB Control Number: 0579-0406.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. As authorized by the PPA, the Animal and Plant Health Inspection Service regulates the importation of certain fruits and vegetables in accordance with the regulations in "Subpart—Fruits and Vegetables" (7 CFR 319.56-1 through 319.56-76).

Section 319.56-68 provides the requirements for the importation of female squash flowers from Israel into the continental United States. This commodity may be imported under certain conditions to prevent the introduction of plant pests into the United States. The regulations require information collection activities, including production site registration, trapping records, box marking, production site inspection, and phytosanitary certificates.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of Burden: The public reporting burden for this collection of information is estimated to average 0.05 hours per response.

Respondents: Businesses and the national plant protection organization of Israel.

Estimated Annual Number of Respondents: 6.

Estimated Annual Number of Responses per Respondent: 1,849.

Estimated Annual Number of Responses: 11,091.

Estimated Total Annual Burden on Respondents: 556 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 16th day of May 2017.

Jere L. Dick,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: South American Cactus Moth; Quarantine and Regulations.

OMB Control Number: 0579-0337.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: As authorized by the Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture, either independently or in cooperation with States, may carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests that are new to or not widely distributed within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture, which administers regulations to implement the PPA.

In accordance with the regulations in "Subpart—South American Cactus Moth" (7 CFR 301.55 through 301.55-9), APHIS restricts the interstate movement of cactus moth host material, including nursery stock and plant parts for consumption, from infested areas of the United States to help prevent the spread of South American cactus moth into noninfested areas of the United States. The regulations contain requirements for the interstate movement of regulated articles and involve information collection activities, including completion of Federal certificates, compliance agreements, and limited permits.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic,

mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.41 hours per response.

Respondents: State plant health officials and businesses.

Estimated annual number of respondents: 6.

Estimated annual number of responses per respondent: 7.

Estimated annual number of responses: 39.

Estimated total annual burden on respondents: 16 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)
