DEPARTMENT OF VETERANS AFFAIRS

38 CFR Parts 1 and 14

RIN 2900–AQ81

Individuals Using the Department of Veterans Affairs' Information Technology Systems To Access Records Relevant to a Benefit Claim

AGENCY: Department of Veterans Affairs.

ACTION: Final rule.

SUMMARY: The Department of Veterans Affairs (VA) issues this final rule amending its regulations addressing when VA will allow individuals and VA recognized service organizations who are assisting claimants in the preparation, presentation, and prosecution of their benefit claims before VA to access specific VA's information technology (IT) systems to review VA records relevant to their clients' claims. This final rule addresses who is permitted, and under what circumstances, to directly access VA records and other claims-related information through specific VA IT

systems during representation of a claimant in a claim for VA benefits. This rule also outlines the appropriate behavior while using VA's IT systems to access records and the consequences for individuals who mishandle such access. This rulemaking, however, does not address general issues involving management of access to VA physical facilities or VA's disclosure of claimants' private information through any means other than direct access to the specific VA IT systems.

DATES: This final rule is effective July 25, 2022.

FOR FURTHER INFORMATION CONTACT:

Carling K. Bennett, Management and Program Analyst, Office of Administrative Review, Department of Veterans Affairs, 810 Vermont Avenue NW, Washington, DC 20420, 202–632–5347 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION: On February 19, 2020, VA published a proposed rule in the **Federal Register** at 85 FR 9435–41, to clarify when an individual providing representation on a claim may access a claimant's automated records now that VA has transitioned to primarily processing VA benefit claims electronically. VA provided a 60-day public comment period and invited interested persons to submit written comments on or before April 20, 2020. In response to the proposed rule, VA received 15 written comments. The commenters included VA-accredited attorneys, law firms, VA-recognized veterans service organizations (VSOs), non-profit corporations, a legal clinic, a law student, and a trade association. In preparing this final rule, VA carefully considered all comments received in response to the proposed rule and addresses them below according to topic. In this final rule, VA focuses its discussion on changes from the proposed revisions based on comments received during the comment period and VA's further consideration of the issues raised by the comments. By clarifying through this rulemaking: (1) who is eligible to apply for remote access to VA IT systems for the purpose of representing, or assisting in the representation of, claimants on their VA benefits claims, and (2) the basic parameters on the privileges that will be granted to the approved VA IT system users, VA will provide transparency to Veterans and beneficiaries as to who may receive information from VA by accessing specific VA IT systems remotely. However, this rule does not change the ability of VA to disclose a claimant's private claim information through other methods to the claimant's
