SUPPLEMENTARY INFORMATION:

Description

The information collection submitted for OMB review contains the following:

1. *Collection of Information:* FERC Form 556 "Application for Authorization of Issuance of Securities."
2. *Sponsor:* Federal Energy Regulatory Commission.

3. *Control No.:* 1902-0075.

The Commission is now requesting that OMB approve with a three-year extension of the expiration date, with no changes to the existing collection. The information filed with the Commission is mandatory.

4. *Necessity of the Collection of Information:* Submission of the information is necessary to enable the Commission to carry out its responsibilities in implementing the statutory provisions of section 3 of the Federal Power Act (FPA) (16 U.S.C. 792-828c) and sections 201 and 210 of the Public Utility Regulatory Policies Act of 1978 (PURPA). The reporting requirements associated with FERC Form 556 require owners or operators of small power production or cogeneration facilities, who seek qualifying status for their facilities, to file the information requested in Form 556 for Commission certification as a qualifying facility (QF).

A primary objective of PURPA is the conservation of energy through efficient use of energy resources in the generation of electric power. One means of achieving this objective is to encourage electric power production by cogeneration facilities which make use of reject heat associated with commercial or industrial processes, and by small power production facilities which use waste and renewable resources as fuel. PURPA through the establishment of various regulatory benefits, encourages the development of small power production facilities and cogeneration facilities which meet certain technical and corporate criteria. Facilities that meet these criteria are called QF's.

Owners and operators of small power production and cogeneration facilities desiring QF certification for their facilities must file the information prescribed in FERC Form 556 with the Commission. (A copy of the form can be obtained from the Commission's Web site at <http://www.ferc.gov/docs-filing/hard-fil-elec.asp#556>.) In addition to identifying the required filing information, FERC Form 556 also outlines the QF certification procedure, and specifies the criteria that must be met for QF certification. Respondents who comply with the FERC Form 556 criteria and are granted QF certification by the Commission are exempt from certain sections of the FPA and the Public Utility Holding Company Act of 1935 as listed in 18 CFR 292.601 and 292.602. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR part 292.

5. *Respondent Description:* The respondent universe currently comprises 297 respondents (on average per year) subject to the Commission's jurisdiction.

6. *Estimated Burden:* 10,368 total hours, 297 respondents (average per year), 1 response(s) per respondent, and 4 hours per response (using FERC Form

556) and 38 hours per response (using self certification) (average).

7. *Estimated Cost Burden to Respondents:* 10,368 hours / 2080 hours per years $\times$ \$107,185 per year = \$534,276.

Statutory Authority: Sections 3 of the Federal Power Act (FPA) (16 U.S.C. 792-828c) and Sections 201 and 210 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. § 2601).
