

in no more than one effort by lessees to adapt their systems and practices, and which allows adequate time for computer and accounting system changes.

This delay preserves the currently effective requirements while ONRR's review of comments is ongoing and final decisions are being made consistent with (1) the withdrawal of the Executive orders on which the 2020 Rule was, in part, based and (2) the issuance of new Executive orders, including, but not limited to, Executive Order 13990, "Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis," Executive Order 13992, "Revocation of Certain Executive Orders Concerning Federal Regulation," and Executive Order 14008, "Tackling the Climate Crisis at Home and Abroad." See 86 FR 7037 (Jan. 25, 2021), 86 FR 7049 (Jan. 25, 2021), and 86 FR 7619 (Feb. 1, 2021), respectively.

The Administrative Procedure Act's (APA) legislative history indicates that the purpose of the notice requirement at 5 U.S.C. 553(d)(3) is to "afford persons affected a reasonable time to prepare for the effective date of a rule or rules or to take any other action which the issuance of rules may prompt." S. Rep. No. 752, 79th Cong., 1st Sess. 201 (1946) and H.R. Rep. No. 1980, 79th Cong., 2nd Sess. 259 (1946). Delaying the effective date provides certainty for the regulated industry during the delay period while ONRR continues to review the 2020 Rule, and eliminates circumstances which would otherwise require regulated entities to update their reporting processes in anticipation of compliance with a rule that may be subject to further revision or withdrawal. ONRR is committed to ensuring transparency and providing certainty in the adequacy and finality of the 2020 Rule. Thus, it would be contrary to the public interest for the 2020 Rule to go into effect, with its accompanying changes in reporting and payment requirements, while the 2020 Rule remains under review. To do otherwise would lead to uncertainty and confusion regarding reporting and payment requirements, duplication of effort, a potential and unnecessary increase in administrative costs, and a strain on lessees and recipient States while the interpretation and application of valuation and payment rules change.

In the First Delay Rule, ONRR anticipated that a second delay might be necessary. See 86 FR 9288. For the reasons stated above, and specifically those related to the identified potential shortcomings in the 2020 Rule as well as undue burdens on regulated entities,

ONRR believes this second delay, until November 1, is appropriate. Thus, ONRR finds that there is good cause for this action under 5 U.S.C. 553(d)(3) for this rule to become effective immediately upon publication. This action is taken pursuant to delegated authority.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 210210-0018; RTID 0648-XA774]

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 630 in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for pollock in Statistical Area 630 in the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the A season allowance of the 2021 total allowable catch (TAC) of pollock for Statistical Area 630 in the GOA.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), April 14, 2021, through 1200 hours, A.l.t., May 31, 2021.

FOR FURTHER INFORMATION CONTACT: Krista Milani, 907-581-2062.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The A season allowance of the 2021 TAC of pollock in Statistical Area 630 of the GOA is 6,297 metric tons (mt) as

established by the final 2021 and 2022 harvest specifications for groundfish in the GOA (86 FR 10184, February 19, 2021).

In accordance with § 679.20(d)(1)(i), the Regional Administrator has determined that the A season allowance of the 2021 TAC of pollock in Statistical Area 630 of the GOA will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 6,097 mt and is setting aside the remaining 200 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for pollock in Statistical Area 630 of the GOA.

While this closure is effective the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens

Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest, as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of pollock in Statistical Area 630 in the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of April 12, 2021.
